Office Memorandum • UNITED STATES GOVERNMENT

TO : DIRECTOR, FBI (65-59312)

DATE: 6-12-52

FROM : SAC, CINCINNATI (65-1743)

SUBJECT: WILLIAM PERL, aka  
ESPIONAGE - R  
PERJURY

Rebulet to New York dated April 23, 1952, relative to the above captioned matter.

Colonel JOHN R. HOOD, JR., [REDACTED], Chief, Nuclear Powered Aircraft Section, Weapons Systems Division, Wright Air Development Center, Wright-Patterson Air Force Base, Dayton, Ohio, advised he was in charge of the Air Materiel Command Engineering Field Office, Oak Ridge, Tenn., from May, 1950 to January 17, 1951. He succeeded Colonel C. D. Gasser in this position.

Colonel HOOD stated he was familiar with the "Ruark Report" in that he had read it prior to going to Oak Ridge. He recalls that many papers were left in file at the time Colonel GASSER left Oak Ridge, but that he does not recall ever having seen the "Ruark Report" at Oak Ridge, Tenn. HOOD stated all files in his possession were turned over to Lieutenant Colonel WALTER L. CARSS at the time he left Oak Ridge on January 17, 1951.

Lieutenant Colonel L. B. ZAMBON, [REDACTED], Assistant to the Chief, Nuclear Propulsion Branch, Power Plant Laboratory, Aeronautics Division, Wright Air Development Center, Wright-Patterson Air Force Base, Dayton, Ohio, advised he was the Assistant to Colonel C. D. GASSER at Oak Ridge, Tenn., from about January, 1949 until May, 1950. ZAMBON stated that while he is familiar with the "Ruark Report", he does not recall ever having seen this report at Oak Ridge. 66

A lead is being set out to attempt to locate the photostatic copy No. 1, of the Ruark Report, in an effort to determine the identities of the individuals who had access to this report at Oak Ridge, Tenn. Such lead is being left to the discretion of the Office of origin, as it is probable that such lead has already been set out by the Office of Origin.

Bureau and New York requested to please note correct Cincinnati file number regarding WILLIAM PERL as being 65-1743.

As you were previously advised, there has been no information obtainable indicating that any Wind Tunnel, three meters in length, was utilized in this country for testing jet engines. However, a further inquiry was made of the Department of the Air Force for descriptive information concerning ten (10) and twenty (20) foot Wind Tunnels, which are located at the Wright-Patterson Air Force Base, Dayton, Ohio. (u)

The Bureau is now in receipt of a communication from the Department of the Air Force, wherein it was indicated that the ten (10) foot Wind Tunnel was not in operation in 1947, the first test having been conducted in that Tunnel during the Fall of 1948. It was further pointed out that this Tunnel was not equipped for testing jet engines. According to the communication, there had, however, been several jet engine tests in the twenty (20) foot Wind Tunnel, the first of which was conducted during the summer of 1944 on the German buzz bomb (V-2). Further, it was mentioned that Jet Engine Battle Damage Tests were conducted in this twenty (20) foot Tunnel. (u)

Re my memorandum, November 27, 1951, which advised that the Air Force would make an effort to obtain information concerning the Soviet publications entitled, "Instruction for Designers, Volume III" and "Express Information."

Lieutenant Colonel L. L. Free, OSI Headquarters, has advised that Air Intelligence has now stated that copies of these publications cannot be obtained through the Air Attache system and its representatives in Yugoslavia. He stated that a representative of Air Intelligence had advised that an unofficial inquiry was made of CIA in this regard and that CIA advised that in all probability CIA can obtain copies of these publications. It was suggested that the Bureau may desire to contact CIA through its regular liaison channels in this connection.

RECOMMENDATION:

It is recommended this memorandum be referred to the Espionage Unit for its information and decision as to whether to request CIA to attempt to obtain these publications.

*OK to contact CIA re this matter.*

## Office Memorandum • UNITED STATES GOVERNMENT

TO : DIRECTOR, FBI (65-59312)

DATE: 3-7-52

FROM: SAC, CINCINNATI (65-1743)

SUBJECT: WILLIAM PERL, aka.  
ESPIONAGE-R, PERJURY~~SECURITY INFORMATION - CONFIDENTIAL~~

ReBulet to New York dated 2/25/52 relative to the above captioned matter, a copy of which was received by this office. A lead was set out in this letter for the Cincinnati Office to ascertain at the Headquarters of the Air Materiel Command, Wright-Patterson Air Force Base, Dayton, Ohio, if that headquarters had forwarded any copies of the Ruark report to Dr. THEODORE VON KARMAN at Pupin Physics Laboratory, Columbia University, New York City.

Mr. BERNARD BEAMAN, 310 Kenilworth Avenue, Dayton, Ohio, Chief, Nuclear Propulsion Branch, Power Plant Laboratory, Aeronautics Division, Wright Air Development Center, Wright-Patterson Air Force Base, Dayton, advised that he was formerly Unit Chief of the NEPA Plane Unit, Plans Office, Power Plant Laboratory of that base. After reviewing the files of his office, he advised that no copy of the Ruark report had ever been forwarded to Dr. THEODORE VON KARMAN at the Pupin Physics Laboratory, Columbia University, New York City, by his office.

Mr. BEAMAN explained that original copies No. 79 and 82 of the Ruark report, known to him as the Johns-Hopkins Applied Physics Laboratory Report TG-20, had been received at Wright-Patterson Air Force Base, Dayton, Ohio. Twenty-two photostatic copies of this report were prepared and distributed to their representatives and facilities. Sometime thereafter he received word from Colonel D. J. KERNRN, a member of the Military Liaison Committee to AEC to the effect that the Commission was very much concerned about this report. Colonel KERNRN stated that the AEC wanted to know the distribution of the report, who had had access to the report and that the original and all copies of the report be accounted for.

Letters were sent to all representatives and facilities having received copies of the report requesting that the reports be returned to Wright-Patterson Air Force Base to the NEPA Plans Unit of the Plans Office, Power Plant Laboratory. In this same letter information was requested as to whether or not the report had been reproduced as well as the identity of the individuals who had access to the report while in the possession of representative or facility.

cc - NY 3/20/52

CI 65-173 memo

As the result of this effort all photostatic copies of the report with the exception of photostatic copy No. 1, were returned. Photostatic copy No. 1 was sent to Lieutenant Colonel C. D. GASSER, AMC Engineering Liaison Officer at Oak Ridge, Tennessee and was never returned to Wright-Patterson Air Force Base, Dayton. The other twenty-one photostatic copies of this report are presently stored in the vault at the Power Plant Laboratory, Wright-Patterson AFB. The interviewing agent personally observed the twenty-one copies in the storage vault mentioned above. The two original copies, Nos. 79 and 82, were returned on November 21, 1947, to Johns-Hopkins University, marked for the attention of Dr. A. E. ROUARK.

Mr. BEAMAN advised that he did not know what disposition was made of photostatic copy No. 1 which had been submitted to Lieutenant Colonel C. D. GASSER. GASSER is presently stationed at London, England, and BEAMAN is positive that GASSER does not have the copy of this report with him.

It was determined through Mr. I. W. ROHLFS, Technical Assistant, Air Provost Marshal's Office, Wright-Patterson AFB, Dayton, Ohio, that Colonel C. D. GASSER is presently the USAF Liaison Officer to the British Ministry of Supply, London, England. He can be contacted in care of the American Embassy, London, and Major OTIS B. THORNTON, ATLO (attache Technical Liaison Officer) will always know the whereabouts of Colonel GASSER.

Mr. ROHLFS stated it was probable that all Air Force records of the NEPA Project were taken by the Southern Air Procurement District Office at Fort Worth, Texas, at the time of the termination of the NEPA Project.

Mr. BEAMAN furnished a copy of a letter dated 3/26/48, address to "Chief of Staff, U. S. Air Force, Washington, 25, D. C., attn: Deputy Chief of Staff, Materiel (Col. M. C. Demler)", which he prepared over the signature of "R. J. MINTY, Colonel, USAF, Chief, Power Plant Laboratory, Engineering Division". This letter is self-explanatory and reads as follows:

"MCREXP/BB/hhd  
"26 March 1948

"MCREXP

"Johns-Hopkins Report TG-20

"'Nuclear Powered Flight'

"Chief of Staff

"U. S. Air Force

"Washington 25, D. C.

"ATTN: Deputy Chief of Staff, Materiel (Col. M. C. Demler)

"1. Pursuant to telephone conversations and requests from your office with regard to the status of the Johns-Hopkins Applied Physics Laboratory Report TG-20, the data desired by your office has been collected, compiled, and is being forwarded herewith. The following is a brief resume, in chronological order, of the events pertaining to the distribution of the subject report.

"a. Report TG-20 was received by the Air Materiel Command classified as 'Confidential', by NACA Liaison Office. Two original copies of this report were received, Nos. 79 and 82. No. 79 was forwarded to Dr. Colbohm of Douglas Aircraft Company, and No. 82 was retained by the Air Materiel Command and used in making photostatic copies which were distributed. Twenty original reproductions (as described in the inclosure) were made and distributed as listed in the inclosure. Distribution of these copies was made on 20 June 1947.

"b. Upon perusal of the copy furnished to this office, it was thought that the report might contain information which should be classified 'Restricted data- Atomic Energy Act'. Accordingly, a copy of the report, and a request for information as to its proper classification was forwarded to Lt. Col Gasser on 7 July 1947.

"c. Information was received from Col Gasser in letter dated 13 August 1947 to the effect that the report did contain 'Restricted Data - Atomic Energy Act' information and therefore should be suitably documented in accordance with existing regulations pertaining to this classification.

"d. Letters were sent out under date of 4 September 1947 requesting that all copies of this

report be returned by registered mail."

(End Page One)

"Ltr AMC: 26 March 1948, to Chief of Staff, USAF, Washington 25, D. C. Subj. Johns-Hopkins Report TG-20 'Nuclear Powered Flight'

"e. The two original copies, Nos. 79 and 82, were suitably documented and classified 'Restricted Data - Atomic Energy Act of 1946' after receipt of information from Johns-Hopkins University of all the information necessary to accomplish this documentation. They were returned on 21 November 1947 to Johns-Hopkins University, marked for the attention of Dr. A. E. Rouark, who is cleared to receive such data.

"f. Following a telephone request from your office, letters or Routing and Record Sheets were sent out under date of 11 February 1948 to all activities who had received a copy of this report, requesting more positive information as to the number of reproductions that were made and also the names of the individuals who had access to, or may have read this report. Inclosed herewith is a copy of the answers received from all the activities.

"2. Summarizing the above, all of the originals, original reproductions and secondary reproductions are completely accounted for. The two original copies were returned to Johns-Hopkins University. Of the 20 first reproductions, one copy is now in the possession of Lt. Colonel C. D. Gasser at Oak Ridge, Tennessee, and the 19 remaining original reproductions are retained by this office. The 2 secondary reproductions, which were made by MCREON (Guided Missiles Section) were also returned and are in the possession of this office. These 19 original reproductions and the 2 secondary reproductions have been, or are in the process of being documented and classified as 'Restricted Data-Atomic Energy Act of 1946'. All of these copies, upon receipt of information from Colonel Gasser as to their classification, were handled according to regulations pertaining to their security classification.

CI 6501743 memo

prior to their actual documentation.

"FOR THE COMMANDING GENERAL:

"R. J. MINTY  
"Colonel, USAF  
"Chief, Power Plant Laboratory  
"Engineering Division.

2 Incls.

- 1 - Summary of Handling of Report TG-20
- 2 - Copies of Replies to Ltr dtd 11 Feb 48"

Mr. BEAMAN also furnished the interviewing agent with a copy of "Summary of Handling of Report TG-20". This summary is in chart form and is being set forth on the following page:

CI 65-1043 memo

It may be of interest to note that NACA Cleveland had advised BEAMAN that no reproductions were made of this report during the time it was in the possession of NACA Cleveland.

No lead is being set out to contact Colonel GASSER or the Southern Air Procurement District Office, Fort worth, Texas, relative to the disposition of photostatic copy No. 1 furnished GASSER by Wright-Patterson AFB which was never returned to that base. Such lead is being left to the discretion of the Office of Origin as to the importance of such a lead at this time. - RUC -

~~SECRET~~ AIR COURIER

Date: March 20, 1952  
 To: Legal Attache  
 London, England  
 From: John Edgar Hoover, Director  
 Federal Bureau of Investigation  
 Subject: WILLIAM PERL, aka.  
 ESPIONAGE - R, PERJURY

As you are aware, an intensive investigation is being conducted with the view of determining the identity of any confidential documents, relative to the NEPA (Nuclear Energy for Propulsion of Airplanes) project, which may have been made available to the Soviets by subject Perl through his participation in the operations of the Rosenberg espionage network.

Along this line an effort is presently being made to determine whether Perl, at any time, had access to the "Ruark Report" on the NEPA project, which report is commonly known as the Johns-Hopkins Applied Physics Laboratory Report Number TG-20. An appropriate check is being made as to the possible availability to Perl of the various copies of this report which were originally distributed by the Air Materiel Command, Wright-Patterson Air Force Base, Dayton, Ohio.

According to information obtained from the Air Materiel Command, all of the copies of the "Ruark Report" originally distributed by them are presently in their possession with the exception of copy number one which was a Photostat and which was sent to Colonel C. D. Gasser, who at the time was the AMC Engineering Liaison Officer at Oak Ridge, Tennessee. This Photostat has been returned to AMC Headquarters and no information is available there as to the disposition that may have been made thereof by Colonel Gasser.

It has been determined that Colonel Gasser is now the USAF Liaison Officer attached to the British Ministry of Supply, London, England, and his exact whereabouts can be determined either through the American Embassy or through Major Otis E. Thornton, who is the Attache Technical Liaison Officer at the Embassy.

REC'D: AIR MAIL

It is desired that you make an immediate effort to contact Colonel Gasser and determine from him the present whereabouts of the afore-mentioned copy of the "Ruark Report," or the disposition which he may have made of this report. It should be particularly determined whether he has any knowledge that this copy was ever made available to subject Perl or to the office of Dr. Theodore Von Karman at the Pupin Physics Laboratory, Columbia University, New York City. It is noted for your information that Perl served as an assistant to Dr. Von Karman at Columbia University during the years 1947 and 1948, and therefore, would have had access to any material made available to Dr. Von Karman's office at that laboratory.

You are requested to give this matter your prompt attention.

PERJURY

There is being transmitted herewith for your information and for appropriate interpretation in a future report in this matter a copy of a letter received from the Legat at London, England, dated April 3, 1952. This letter sets forth the substance of an interview which was had with Colonel G. H. Gessen with respect to his knowledge as to the disposition of one of the copies of the "Runk Report" which was known to have been in his possession.

Subject: WILLIAM PERL, aka.  
ESPIONAGE - R, PERJURY

ReBulet 3-20-52.

Colonel C. D. Gasser advised he has no knowledge as to the disposition of the "Ruark Report" or its present whereabouts. He recalls the report, remembers receiving it, and believes he forwarded his comments on it to the Air Materiel Command. He stated, however, that, so far as he knows, the Report never left the Air Force Operation Files at Oak Ridge, Tennessee. He believes the records there would reflect either the Report itself, or information regarding its disposition.

Colonel Gasser further stated that he would not have made this Report available to Dr. THEODORE VON KARMAN, or to any personnel in the latter's office. Colonel Gasser said that he would have had no occasion to have furnished the Report to VON KARMAN, inasmuch as the VON KARMAN group and he were working in entirely divergent fields.

Colonel Gasser noted that, when he left Oak Ridge in May, 1950, he turned all his papers over to Lt. Colonel Louis Zambon, who succeeded him. Zambon was in turn succeeded by Colonel John Hood. Colonel Gasser believes both of these officers to be presently located at Wright Air Development Center, Dayton, Ohio.

1. During the course of a security inspection conducted on 11 August 1950 at above captioned corporation, an Air Force Contractor, Security Officer, LEON L. BURNSON, of the New York Air Force Procurement Field Office, 67 Broad Street, New York 4, N.Y. was apprised of the fact that an employee by the name of [REDACTED] Special Electrical Development Technician, is believed to be a card carrying member of the Communist Party; is known to be a member of the ABRAHAM LINCOLN BRIGADE; and is a past President of Local No. 1227 of the UNITED ELECTRICAL, RADIO AND MACHINE WORKERS OF AMERICA. The Federal Bureau of Investigation is reportedly cognizant of [REDACTED] background and presence at subject facility.

2. Security Officer BURNSON was also apprised of employment at subject corporation of one MORRIS PASTERNAK, Machinist, who is suspected of being a member of the Communist Party. No proof was furnished to Security Officer BURNSON or is available at this time.

3. The above report is herewith furnished to your office for information, as a matter pertaining to the Federal Bureau of Investigation.

Re: STANLEY ROBERT RICH (Civ)  
1D-OSI INV 33-2334

Dear Sir:

This District has been requested to conduct an investigation of SUBJECT for information on which to base a clearance for access to Secret material in connection with his duties as President and Technical Director of The General Ultrasonics Company, Subsidiary of Acoustics Association, Incorporated, 67 Mulberry Street, Hartford, Connecticut.

DO #1 files reflect your agency conducted investigation of SUBJECT under file 65-1367 and contain the following FBI reports:

- RCI, S/A BRENTON S. GORDON, 11 Aug 50, Boston, 65-3385
- RCI, S/A CHARLES P. SILVERTHORN, 16 Aug 50, New York, 65-15395
- RCI, S/A EDWARD R. WHALEN, 18 Sep 50, New Haven, 65-1367
- RCI, S/A CHARLES P. SILVERTHORN, 20 Oct 50, New York, 65-15395
- RCI, S/A EDWARD R. WHALEN, 25 Jan 51, New Haven, 65-1367
- ✓ RCI, S/A CHARLES P. SILVERTHORN, 3 May 51, New York, 65-15395
- ✓ RCI, S/A CHARLES P. SILVERTHORN, 1 Aug 51, New York, 65-15395
- RCI, S/A EDWARD R. WHALEN, 15 Aug 51, New Haven, 65-1367

Request this District be advised of the present status of your investigation of RICH. In the event that no further action is contemplated by your office, request you advise whether you interpose any objection to OSI investigation to include interview of SUBJECT. Further request you furnish any additional information in your files concerning SUBJECT and any information relative to SUBJECT's wife SHIRLEY C. RICH and listed reference BASIL B. BARGELL.

Sincerely,

*Frank E. Clark*

**PENALTY.**—Failure to answer all questions, or any misrepresentation (by omission or concealment, or by misleading, false, or partial answers) may serve as a basis for denial of clearance for access to classified Department of Defense information. In addition, Title 18, United States Code 1001, makes it a criminal offense, punishable by a maximum of five (5) years' imprisonment, \$10,000 fine, or both, knowingly to make a false statement or representation to any Department or Agency of the United States, as to any matter within the jurisdiction of any Department or Agency of the United States. This includes any statement made herein which is knowingly incorrect, incomplete or misleading in any important particular.

DATE October 10, 1953 NAME AND ADDRESS OF EMPLOYER  
The General Electronics Company  
67 Mulberry Street, Hartford 3, Connecticut

LAST NAME—FIRST NAME—MIDDLE NAME  
Rich, Stanley Robert

ANY OTHER NAME BY WHICH KNOWN (Alias, etc.)  
None

## PROVISIONS

The Department of Defense is responsible for assuring that contractor employees having access to classified Department of Defense information meet security standards. These standards include consideration of circumstances surrounding membership in, or association with, organizations identified below. Complete this form by placing your answer (Yes or No) after each question. If your answer to any question is "Yes," furnish full and complete information under "Remarks."

- Are you now, or have you ever been, a member of any of the organizations identified in paragraph I below? Yes
- Are you now, or have you ever been, a member of any of the organizations identified in paragraph II below? Yes
- Are you now, or have you ever been, affiliated or associated with any of the organizations identified in paragraph I below? Yes
- Are you now, or have you ever been, affiliated or associated with any of the organizations identified in paragraph II below? Yes
- Are you now engaged, or have you engaged since 1947, in the sale, gift, or distribution of any written, printed, or other matter prepared, reproduced, or published by any of the organizations identified in paragraphs I and II below, or by any of their agents or instrumentalities? No
- Have you ever submitted for publication material to the organizations identified in paragraphs I and II below, their agents, or instrumentalities? No

**REMARKS** (Use the space provided below and attach additional sheets, if necessary, for a full detailed statement. If associated with any of the listed organizations, specify nature and extent of association with each, including dates, places, and credentials now or formerly held.)

I was a member of the Stoinetz Club, affiliated with the Young Communist League, as a student only, from 10/37 to 6/38. I have since never been connected or even remotely associated with such organizations—see records of Industrial Employment Review Board hearing, March 10 and 10, 1952, in Washington D.C.

## CERTIFICATION

I CERTIFY THAT THE ENTRIES MADE BY ME ABOVE ARE TRUE, COMPLETE, AND CORRECT TO THE BEST OF MY KNOWLEDGE AND BELIEF AND ARE MADE IN GOOD FAITH.

THE FOLLOWING ADDITIONS TO AND DELETIONS FROM THE ABOVE LIST ARE ANNOUNCED:

INDUSTRIAL EMPLOYMENT REVIEW BOARD  
WASHINGTON, D. C.

MEMO

1 April 1952

Dear Mr. Rich:

Reference is made to the appeal of your case to the Industrial Employment Review Board from a revocation of clearance for your access to classified military information by the Army-Navy-Air Force Personnel Security Board on 27 September 1951.

The Industrial Employment Review Board has rendered a decision in your case on the basis of all the evidence presented before this Board at the hearings on 10 and 19 March 1952, and the material contained in the case file.

This Board has decided to reverse in part the determination of the Army-Navy-Air Force Personnel Security Board which revoked your clearance for access to classified military information and/or material. The request by the Rich-Roth Laboratories for authorization for your access to contract work and information of the Departments of the Army, Navy or Air Force is therefore GRANTED through CONFIDENTIAL, and the Secretaries of the Army, Navy and Air Force withdraw any objection to your access to classified military information through CONFIDENTIAL.

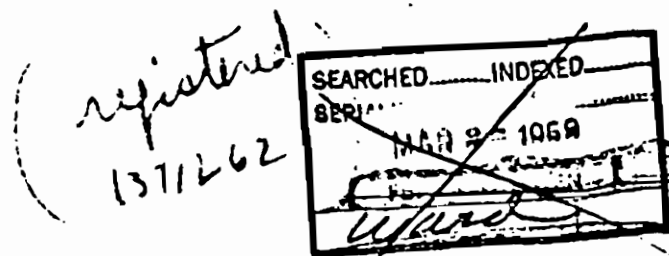

This authorization is specifically limited to the Rich-Roth Laboratories, East Hartford, Connecticut, and if you should be desired for employment by some other employer, request for authorization to so employ you must be made by the prospective employer. Furthermore, if your connection with the Rich-Roth Laboratories, East Hartford, Connecticut, is terminated for any reason and, at a later date your reemployment is desired on classified military information and/or material, a new authorization must be requested.

Sincerely yours,

*J. Emmet Mason*  
J. EMMET MASON  
Chairman  
Industrial Employment Review Board

Mr. Stanley R. Rich

UNITED STATES AIR FORCE THE INSPECTOR GENERAL OFFICE OF SPECIAL INVESTIGATIONS		FILE NO. 33-2334	DATE MAR 24 1959	az
<b>REPORT OF INVESTIGATION</b>		REPORT MADE BY W. D. CROWLEY, S/A		
TITLE (U) STANLEY ROBERT RICH (DOB: 21 Oct 1917) Civilian, Employee: The General Ultrasonics Company Subsidiary of Acoustics Association, Inc. 67 Mulberry Street Hartford, Connecticut		REPORT MADE AT DO #1, Westover AFB, Mass.		
		PERIOD 13 March 1959		
		OFFICE OF ORIGIN DO #1, Westover AFB, Mass.		
		STATUS PENDING		
CHARACTER COMMUNIST MATTERS				
REFERENCE INITIAL REPORT (DO #4 file 42-63730)				
SYNOPSIS <p>Investigation initiated 9 Mar 59 by Commander, 1st District OSI predicated upon results of National Agency Check which reflected SUBJECT admitted membership in Steinmetz Club of Young Communist League (YCL) and participation in leftist activities at College of the City of New York. Admitted acquaintance with JULIUS ROSENBERG, MORTON SOBELL, WILLIAM DANZIGER, WILLIAM MUTTERPERL, and MAX ELITCHER at College of the City of New York. Claimed he abandoned leftist sympathies after graduation. SUBJECT allegedly discussed Communism favorably. FBI informant stated he met SUBJECT at Allaben Acres, described as leftist camp at Phoenicia, New York. Previous investigation verified SUBJECT's birth, education, and employment through September 1950. Following previous investigation of SUBJECT, Army-Navy-Air Force Personnel Security Board denied SUBJECT access to classified information 7 Aug 51, then reversed decision on 1 Apr 52, granting him access to classified material. FBI advised investigation CLOSED; no objection to OSI investigation. DO #1 files contain no additional information on SUBJECT and no record of SUBJECT's wife, sister, parents, or listed references RADIN, ROSEN, or BARWELL. Files reflected previous Personnel Security Investigations on MC GUIGAN and KATZ, possibly identifiable with listed references.</p> <p>Attention is invited to the provisions of AFR 124-1 which prohibit the release of investigative information to unauthorized persons.</p>

~~CONFIDENTIAL~~

1D-OSI INV 33-2334

DETAILS:

1. Investigation initiated 9 Mar 59 by Commander, 1st District OSI predicated upon results of a National Agency Check on SUBJECT.

AT WESTOVER-AF-BASE, MASSACHUSETTS

2. On 13 Mar 59 results of National Agency Check on SUBJECT were reviewed and the following information extracted:

MAX ELITCHER, admitted member of the Communist Party from 1939 to 1948, advised 20 Jul 50 that JULIUS ROSENBERG on several occasions attempted to recruit him into a Soviet espionage network. ELITCHER also advised that SUBJECT, STANLEY RICH, graduated with him from the College of the City of New York (CCNY), New York City in 1938 and that they resided together for a short time in 1938 and 1939 at 1316 Delafield Place, Washington, D. C. According to ELITCHER, in 1945 while on a business trip to Boston, Mass., he met STANLEY RICH and learned that RICH was then working at the Submarine Signal Corporation in Boston, Mass., on underwater sonic devices. Later ELITCHER mentioned to one MORTON SOBELL that he had met RICH in Boston. Some time later RICH's name was brought up in a conversation and it was ELITCHER's recollection that SOBELL seemed to have some knowledge of the kind of work RICH was doing. ELITCHER, in a signed statement dated 21 Jul 50, advised he had been told by JULIUS ROSENBERG that MORTON SOBELL was co-operating with ROSENBERG in obtaining information for the Russians. ELITCHER did not know if RICH was ever contacted by JULIUS ROSENBERG or by MORTON SOBELL.

SUBJECT, in interview by FBI agents, advised as follows: He was a member of the Steinmetz Club of Young Communist League in senior year at CCNY and participated in leftist activities at CCNY. He claimed to have abandoned leftist sympathies after graduation. He was acquainted with JULIUS ROSENBERG, MORTON SOBELL, WILLIAM DANZIGER, WILLIAM MUTTERPERL, and MAX ELITCHER at CCNY.

FBI informant advised that HELEN DARION, wife of JOSEPH DARION, both of whom were weekend guests of STANLEY RICH in Connecticut, was assigned the position of Treasurer in one of the various sections of the New York County Communist Party in 1947.

SUBJECT, WILLIAM DANZIGER, and MORTON SOBELL while living at Delafield Place, Washington, D. C., allegedly discussed Communism favorably. One of these three alleged to have exhibited membership card in Young Communist League (YCL). SUBJECT allegedly stated that if he developed information in subsonic waves, he would see that Russia received it. Informant was not sure whether this remark was made in jest.

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

1D-OSI INV 33-2334

Former classmate of SUBJECT described SUBJECT as a loud mouth, aggressive and offensive type Communist. He stated that RICH's ~~name~~ *b7c* whose name he could not recall, seemed a more determined type of Communist than RICH.

FBI informant stated he met RICH in the summer of 1942 at Allaben Acres which he described as a leftist camp located at Phoenicia, New York. Informant advised he had been recommended to Allaben Acres by a Communist; that many Communists attended the camp; and that the entertainment included propaganda for the opening of a second front.

SUBJECT reinterviewed in 1951 and denied knowledge of Communistic activity at 1316 Delafield Place, Washington, D. C. while he lived there, or of Communist cell at the Bureau of Naval Ordnance.

SUBJECT's birth, education, and employment through Sep 50 verified. SUBJECT previously investigated by Army CIC in 1948, then again in 1950-1951; Army-Navy-Air Force Personnel Security Board denied SUBJECT access to classified material 7 Aug 51, then reversed the decision 1 Apr 52 granting SUBJECT access to classified military information and/or material through Confidential.

3. This matter referred to FBI, New Haven, Connecticut under the Delimitations Agreement. FBI advised investigation CLOSED; no information available additional to that in possession of OSI, and no objection to OSI investigation, FBI also advised its files contain no information concerning SUBJECT's wife or listed reference BASIL B. BARWELL.

4. DO #1 files checked 13 Mar 59 reflected no additional information on SUBJECT and no record of SUBJECT's wife, sister, parents, or listed references Rabbi JACOB RADIN, ALFRED H. ROSEN, or BASIL B. BARWELL. Files reflected one WILLIAM D. MC GUIGAN, possibly identifiable with SUBJECT's listed reference, was the subject of a Personnel Security Investigation, DO #1 file 43-3085 destroyed Dec 1953, office of origin DO #18, file 43-10242. Files further reflected one LEONARD L. KATZ who appears to be identical with SUBJECT's listed reference LEONHARD KATZ, was the subject of a favorable Personnel Security Investigation CLOSED January 1950, DO #1 file 43-656.

5. Classified ~~CONFIDENTIAL~~ to protect against unauthorized disclosure of investigative information.

**SYNOPSIS**

**DETAILS:**

**AT DENVER, COLORADO**

1. On 17 April 1959, files of the City and County of Denver Police Department were reviewed for the writer concerning SUBJECT's sister **RHODA RICH GERSTEN**, *b7c*  
Denver, Colorado, with negative results.

2. On 17 April 1959, S/A E. A. SAMSON reviewed the Denver FBI files for the writer. SAMSON stated that SUBJECT's sister **RHODA RICH GERSTEN** is the wife of **JEROME WILLIAM GERSTEN** and that FBI had conducted an investigation concerning **JEROME WILLIAM GERSTEN** in 1953 and 1954. SAMSON advised that SUBJECT and SUBJECT's sister were mentioned in these FBI reports. The following information was furnished by Denver FBI concerning the investigation of **JEROME WILLIAM GERSTEN**:

Subject: **JEROME WILLIAM GERSTEN**, Consultant, Physical Medicine Service,  
Pittsbloms Army Hospital, Department of the Army, Denver, Colorado:

FBI ROI's by S/A **WILLIAM J. REYTON**, Denver, dated 2/18/54; 2/5/54; and  
4/1/53.

DETAILS:

1. The writer was assisted in this investigation by Special Agent WARREN A. SEAMANS.

2. The following portion of this investigation was conducted by the writer.

AT WEST HARTFORD, CONNECTICUT

3. Files, West Hartford Police Department, South Main St., reviewed on 8 April 1959 with the assistance of JANNETTE PENFIELD, Clerk, failed to reflect any criminal or subversive information on SUBJECT, BASIL B. BARWELL, [REDACTED], West Hartford, Conn. or WILFRED ROTH, [REDACTED] West Hartford, Conn., SUBJECT's partner in Rich-Roth Laboratories. b7c

AT HARTFORD, CONNECTICUT

4. On 8 April 1959, records of the Motor Vehicle and Criminal Division, reviewed by ANTOINETTE DIBELLA, Clerk, Identification Division, checked by Mrs. ALICE DAVIS, Clerk, and of the Subversive and Special Services Division, examined by Mrs. ROSE ALBRIGHT, Secretary, all at the Connecticut State Police Headquarters, 100 Washington Street, contained no information relative to SUBJECT, BASIL B. BARWELL or WILFRED ROTH.

5. Attempts on 8 April 1959, to verify SUBJECT's employment as a partner in Rich-Roth Laboratories and as president of Ultraviscoson through personnel or payroll records, met with negative results. Mr. WILFRED ROTH, [REDACTED] West Hartford, Conn., SUBJECT's former partner, was interviewed at Roth Laboratory for Physical Research, 1240 Main Street. ROTH advised no records exist, but he verified from memory that he and SUBJECT had entered into partnership in April 1950 as Rich-Roth Laboratories, 1240 Main St. and SUBJECT was actively and continuously engaged in the business until dissolution of the partnership in April 1955. ROTH advised the Ultraviscoson Company was formed in 1952, with SUBJECT as president, for the specific purpose of developing and marketing one particular product. ROTH advised this product was sold to Bendix Aviation in approximately February 1953 at which time the corporation became inactive and was legally dissolved in 1955. b7c

AGENT'S NOTE: PSQ reflects association with Ultraviscoson Company from 1951 to 1953.

ROTH advised he had first come into contact with SUBJECT in 1949 and between that time and 1955, ROTH felt he "knew SUBJECT better than SUBJECT knew himself". ROTH explained he has had only limited social contact with SUBJECT since 1955. He advised he felt SUBJECT enjoyed a good reputation, had a good character, was honest, trustworthy, and financially responsible. ROTH also stated SUBJECT always had associated with persons of good character and that he never had been given any

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

1D-OSI 33-2334

AT HARTFORD, CONNECTICUT (cont'd)

reason to doubt SUBJECT's morality, integrity, or loyalty to the United States. ROTH also related SUBJECT's wife appeared to be of good character, and that although his knowledge of SUBJECT's mother and sister was limited, he knew nothing derogatory about them. ROTH knew of no questionable activities or foreign connections on the part of SUBJECT and was unaware of SUBJECT's membership or association with any organizations whose interests were inimical to those of the United States. ROTH believed SUBJECT had taken a vacation trip to the Virgin Islands in 1958 but was unaware of other travel by SUBJECT outside of the United States. Interviewee advised he was aware of SUBJECT's indiscreet associations with persons of questionable subversive aims during the late 1930's because he had testified on SUBJECT's behalf before the Industrial Employment Review Board. ROTH stated he felt allegations of continuing present Communist sympathies were groundless. In conclusion, ROTH stated he had never heard SUBJECT talk against or advocate any change of our democratic form of government, and he recommended SUBJECT for a position of trust with the U. S. Government.

6. On 10 April 1959, partnership and corporation papers pertaining to SUBJECT were reviewed at 101 Lafayette St., with the assistance of Attorney SAUL SEIDMAN. Records reflect SUBJECT and WILFRED ROTH entered into partnership in April 1950 as Rich-Roth Laboratory, and on 1 July 1952 SUBJECT and ROTH formed the Ultraviscoson Company which was ultimately dissolved on 25 October 1955. Records failed to reflect a date for dissolution of the Rich-Roth Laboratories partnership and Attorney SEIDMAN did not believe the partnership had ever been legally dissolved.

7. Personnel records of the General Ultrasonics Company, 67 Mulberry St., reviewed on 8 April 1959 with the assistance of HENRY J. ANDRUKIEWICZ, Personnel Manager, reflect STANLEY ROBERT RICH, born 21 October 1917, SSN 027-22-0945, had formed the above company in December 1954, had assumed the presidency, and had remained active in that position since 1954. ANDRUKIEWICZ advised he had known SUBJECT approximately two years on the job only. He considers SUBJECT to be honest, trustworthy and loyal to the United States. He had but limited knowledge of SUBJECT's immediate family but was aware of no unfavorable information concerning the family. Interviewee knew nothing of SUBJECT's associates or SUBJECT's activities prior to 1951. He was aware that SUBJECT took a business trip to Canada in 1958. He was aware of no foreign connections or membership in any questionable organizations on the part of SUBJECT. ANDRUKIEWICZ recommended SUBJECT for a position of trust with the U. S. Government.

AT WEST HARTFORD, CONNECTICUT

8. A neighborhood investigation was conducted on 8 April 1959 in the vicinity of 24 Cassilis Road. The following former neighbors of SUBJECT were interviewed:

Mr. ANTHONY J. FRATSON  
Mrs. PAUL MAILLET  
Mr. IRVING BECK,  
Mrs. LUCRETIA FIERCE,

b7c

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

1D-OSI 33-2334

AT WEST HARTFORD, CONNECTICUT (cont'd)

All interviewees verified SUBJECT's residency at 24 Cassilis Road from approximately 1950 to 1953, but all claimed only limited knowledge of SUBJECT and his family. All except BECK, who was aware of SUBJECT's employment at Rich-Roth Laboratories, knew nothing of SUBJECT's activities outside of the neighborhood. None of the neighbors interviewed knew anything derogatory about SUBJECT or had any reason to doubt SUBJECT's loyalty, but none felt qualified to recommend SUBJECT for a position of trust. None of the neighbors had known SUBJECT before 1950 or had any contact with SUBJECT since 1953. No one was able to furnish names of other neighbors who might have known SUBJECT.

9. On 8 April 1959, a neighborhood investigation was conducted in the vicinity of 363 North Quaker Lane. All persons interviewed verified SUBJECT's residence at the above address from approximately 1953 to the present.

BERNARD MARCUS, [REDACTED], advised he had known SUBJECT as a next door neighbor since 1953. MARCUS was aware of SUBJECT's association with ROTH, but knew nothing of SUBJECT's activities or associates prior to 1953 except that SUBJECT had once been with Harvard University. MARCUS believed SUBJECT to be a loyal American, of good character and unquestioned integrity. MARCUS advised on the rare instances when SUBJECT discussed political thinking with him, SUBJECT always seemed to favor the stand of the American government. Interviewee knew of no questionable organizations of which SUBJECT was a member, and had no knowledge of any foreign travel performed by SUBJECT or foreign connections maintained by SUBJECT. MARCUS further stated he had no knowledge of SUBJECT's mother or sister but believed SUBJECT's wife and family were of good character. Interviewee advised he had never heard SUBJECT advocate changing our democratic form of government or embracing any philosophy whose ideals were inimical to those of the United States. He recommended SUBJECT for a position of trust with the U. S. Government.

Mrs. ALAN R. BURMAN, [REDACTED], advised she had known SUBJECT as a neighbor since 1953. She considered SUBJECT to be honest, patriotic and loyal to the United States. She had no knowledge of SUBJECT's activities or associates prior to 1953 and was aware of nothing unfavorable concerning SUBJECT or SUBJECT's family. BURMAN did not know SUBJECT's mother or sister. She did not believe SUBJECT was the type to associate with questionable organizations or individuals of questionable character. Interviewee knew of no foreign connections or foreign travel on the part of SUBJECT. BURMAN recommended SUBJECT for a position of trust with the USAF.

Mrs. PAUL LILLEY, [REDACTED], advised she had very limited contact with SUBJECT as a neighbor since 1953. LILLEY knew nothing unfavorable or derogatory about SUBJECT or his immediate family, but she did not feel qualified to recommend SUBJECT for a position of trust.

10. Listed character reference BASIL B. BARWELL, [REDACTED], West Hartford, Conn. was interviewed on 13 April 1959 at the offices of the General

~~CONFIDENTIAL~~

b7C

~~CONFIDENTIAL~~

1D-OSI 33-2334

AT WEST HARTFORD, CONNECTICUT (cont'd)

Cigar Corporation, Oakwood Avenue. BARWELL advised he had known SUBJECT since 1954 and considered SUBJECT to be a close personal friend. BARWELL advised he believed SUBJECT to be of good character, reputation, and unquestioned integrity, and further stated he had no reason to doubt SUBJECT's honesty, trustworthiness, financial responsibility, morality or the reputation of SUBJECT's family. BARWELL advised he had met SUBJECT's wife and mother on several occasions and considered both to be of good character. In addition, BARWELL related he had met SUBJECT's sister from Denver, just once and had talked with her for about one hour. He advised she seemed to be of good character. Interviewee knew of no foreign connections maintained by SUBJECT, and to the best of his knowledge, the only time SUBJECT left the United States was for a vacation trip to United States possessions in the Virgin Islands.

BARWELL believed all of SUBJECT's associates were of good character and he was unaware of membership or association by SUBJECT with any questionable or subversive organizations. BARWELL stated he had discussed politics with SUBJECT but that SUBJECT's views were typical of the loyal American businessman and that SUBJECT had never advocated changing our democratic form of government or embraced any philosophy whose ideals were inimical to those of the United States. BARWELL advised he knew nothing about SUBJECT's activities or associates prior to 1951 except SUBJECT had worked for the Navy during World War II. BARWELL stated he believed SUBJECT would be a good security risk and recommended SUBJECT for a position of trust with the U. S. Government.

11. The following portion of this investigation was conducted by Special Agent SEAMANS.

AT BOSTON, MASSACHUSETTS

12. On 7 April 1959, files, Massachusetts Board of Probation, New Courthouse, central repository for records of convictions in the Commonwealth of Massachusetts, were reviewed with respect to SUBJECT and listed references ALFRED H. ROSEN and LEONARD KATZ, also known as LEONARD L. KATZ. Files reveal that SUBJECT was charged with two minor traffic violations [REDACTED]

[REDACTED] No information identifiable with listed reference ALFRED H. ROSEN was contained in above files.

13. Records, Department of Public Safety, Division of Subversive Activities, Commonwealth of Massachusetts, State House, reviewed on 16 April 1959, contain no information relative to SUBJECT or listed references identified above.

14. Records, Boston Field Office, Federal Bureau of Investigation, 470 Atlantic Avenue, reviewed on 21 and 30 April 1959, were found to contain no pertinent information concerning listed references identified in paragraph 12 above. Records do reflect that a Security-type investigation was conducted on SUBJECT, which report bears the same file number as that listed in the initial report of this investigation. Further information concerning the file can be obtained at Headquarters,

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

1D-OSI 33-2334

AT BOSTON, MASSACHUSETTS (cont'd)

Federal Bureau of Investigation, Washington, D.C.

AT WALTHAM, MASSACHUSETTS

15. Records, Raytheon Manufacturing Company, reviewed with the assistance of ROBERT F. ROSS, Personnel Manager, on 14 April 1959 in order to obtain additional identifying data relative to listed reference ROSEN, reflected he was born 5 March 1915, place not indicated.

16. Files, Waltham Police Department, reviewed with the assistance of VERONICA MARTONSHA, Clerk, on 14 April 1959, were found to contain no information relative to listed reference ROSEN.

AT WOBURN, MASSACHUSETTS

17. Records, Woburn Police Department, reviewed on 21 April 1959 with the assistance of Officer OLIVER C. GALANTE, contain no information pertaining to listed reference LEONHARD KATZ, also known as LEONARD L. KATZ.

AT BOSTON, MASSACHUSETTS

18. Re-check of records, Massachusetts Board of Probation on 30 April 1959, indicated that no information relative to listed reference ROSEN was on file in that agency.

AT NEWTON, MASSACHUSETTS

19. On 30 April 1959, reference ROSEN was interviewed at his office located at 200 Beylston Street. ROSEN stated he and SUBJECT were co-workers at Submarine Signal Company, Boston, Mass., division of Raytheon Manufacturing Company. He has known SUBJECT for 12 years, and they are close personal friends. His family exchanges frequent visits with SUBJECT's family. ROSEN considers SUBJECT honest, trustworthy, and of unquestioned integrity and loyalty to the United States. SUBJECT, his family and other associates are persons of good reputation, and interviewee recommended SUBJECT for a position of trust with the United States Government. He added that SUBJECT was completely disinterested in all political matters and, to the best of interviewee's recollection, has never entered into even a casual discussion of politics. He stated SUBJECT's main interests outside of professional considerations were classical music and scientific problems not related to his work; beyond this, he had no knowledge of SUBJECT's activities.

DETAILS:

AT MENLO PARK, CALIFORNIA

1. On 8 April 1959, Miss JOAN L. STOL, Personnel Clerk, Stanford Research Institute, 333 Ravenswood Road, after a review of the personnel records of WILLIAM D. McGUIGAN, listed reference, stated that reference was born 28 February 1920 at Fargo, North Dakota, and his present address was listed as [REDACTED] Los Altos, California. b7C

AT SAN FRANCISCO, CALIFORNIA

2. On 17 April 1959, a review of the files of the San Francisco Field Office, Federal Bureau of Investigation, effected by Special Agent JOHN H. SMITH, did not disclose any record of McGUIGAN.

3. On 16 April 1959, a review of the files of Western Research Foundation, 660 Market Street, effected by Special Agent LAWRENCE W. BLOCH, did not disclose any record of McGUIGAN.

4. The following portion of this investigation was conducted by Special Agent HERBERT E. FORD.

AT LOS ALTOS, CALIFORNIA

5. On 21 April 1959, files of the Los Altos Police Department were reviewed by GERALD FISKE, Desk Sergeant, and disclosed no record of McGUIGAN.

AT SAN JOSE, CALIFORNIA

6. On 21 April 1959, files of the San Jose Police Department, reviewed by BERNICE KING, Clerk, and files of the Santa Clara County Sheriff's Office, reviewed by MARGARET CHAVARRIA, Clerk, disclosed no record of McGUIGAN.

7. On 21 April 1959, files of the Santa Clara County Registrar of Voters, reviewed by NORMA COLE, Clerk, disclosed the following information: WILLIAM D. McGUIGAN, [REDACTED] Los Altos, California; occupation, Engineering; born in North Dakota; registered on 15 October 1955 to vote for one of the two major political parties. Prior registration for 1952 disclosed McGUIGAN was registered to vote for one of the two major political parties. b7C

8. The following portion of this investigation was conducted by the writer.

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

DETAILS: (Continued)

AT MENLO PARK, CALIFORNIA

9. On 24 April 1959, WILLIAM D. McGUIGAN, Assistant Director, Engineering Division, Stanford Research Institute, was interviewed and stated that he first became acquainted with SUBJECT in 1946 when he and SUBJECT worked together for the Submarine Signal Corps in Boston, Mass. McGUIGAN stated that his last contact with SUBJECT was in June 1957 when he visited SUBJECT at General Ultrasonics Company, Hartford, Connecticut. McGUIGAN further stated he had telephonic contact with SUBJECT 8 months ago. McGUIGAN advised that he believed SUBJECT to be honest, reliable, trustworthy, and financially responsible. McGUIGAN further advised that SUBJECT's wife, SHIRLEY, is of good reputation, and that he has no knowledge of SUBJECT's parents. McGUIGAN stated that he is not acquainted with any of SUBJECT's associates. McGUIGAN knew of no foreign travel or foreign connections on the part of SUBJECT. McGUIGAN further stated that subsequent to employment with the Submarine Signal Corps, he and SUBJECT went to work for the Raytheon Manufacturing Company in Massachusetts, and that SUBJECT resigned in the first half of 1950, approximately 6 months prior to termination of McGUIGAN's employment. McGUIGAN stated that he later heard that SUBJECT's termination was due to a security matter. McGUIGAN stated that he had heard from a person whose name he could not recall and who was an employee of Raytheon, that SUBJECT had "hobnobbed with Leftists" at the City College of New York, (CCNY). McGUIGAN stated that on one occasion he received a letter from SUBJECT, while SUBJECT was a partner with Rich-Roth Laboratories at Hartford, Connecticut, in which SUBJECT stated he was denied a clearance to work on classified projects due to questions regarding his association with the CCNY. McGUIGAN further stated that the only organization of which he knew SUBJECT to be a member was the Ultra Sonic Society of America which SUBJECT founded. The purpose of this organization was to raise the ethical standards of Ultrasonics workers. McGUIGAN stated that he does not believe SUBJECT to have any Leftist leanings and believes SUBJECT to be completely loyal to the United States Government. McGUIGAN stated that he would recommend SUBJECT for a position of trust with the United States Air Force. In conclusion, McGUIGAN stated that Mr. ARCHIE S. BROWN, also employed at Stanford Research Institute, was SUBJECT's supervisor at the Brooklyn Navy Yard prior to the time that he, (McGUIGAN), met SUBJECT.

10. On 24 April 1959, Dr. ARCHIBALD S. BROWN, Special Assistant to the Director of Engineering Research, Stanford Research Institute, Captain, U. S. Navy, (Retired), stated that he became acquainted with SUBJECT as SUBJECT's employer at the Brooklyn Navy Yard when SUBJECT was in a civil service position in 1941, and that his last contact with SUBJECT was in 1943. BROWN stated, however, that he has seen SUBJECT

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

19D-OSI 33-2702

DETAILS: (Continued)

once or twice subsequent to that date at technical meetings. BROWN stated that SUBJECT is honest and reliable, financially responsible, and that he had no knowledge of SUBJECT'S family or associates. BROWN knew of no foreign travel, foreign connections, or membership in questionable organizations on the part of SUBJECT. BROWN stated that he considered SUBJECT to be loyal to the United States Government and recommended SUBJECT for a position of trust with the U. S. Air Force.

STANLEY ROBERT RICH

DETAILS:

1. The writer was assisted in this investigation by Special Agents GERALD F. KEYES and RUBIN SCHARFMAN.

AT NEW YORK, NEW YORK

2. On 6 April 1959, the files of 2d District OSI were reviewed for reporting agent concerning the individuals listed below and revealed nothing of an unfavorable nature:

RHODA RICH GERSTEIN, nee: RICH - sister  
JACOB RADIN - reference  
MINNIE RICH - mother  
MORRIS RICH - father  
SHIRLEY RICH, nee: COHEN - wife

3. On 6 April 1959, the files of 2d District OSI were reviewed for reporting agent concerning SUBJECT and revealed nothing in addition to that reported by DO#1.

4. On 14 April 1959, the files of the New York City Police Department, BSS and the New York City Office of the Federal Bureau of Investigation were reviewed for Special Agent KEYES concerning reference JACOB RADIN and revealed nothing of an unfavorable nature.

5. On 14 April 1959, the files of the New York City Police Department, BSS and the New York City Office of the FBI were reviewed for Special Agent KEYES, concerning MINNIE RICH (SUBJECT's mother) and revealed nothing of an unfavorable nature.

6. On 22 April 1959, the files of the NYCPD, BSS were reviewed for Special Agent KEYES concerning MORRIS RICH (SUBJECT's father) and RHODA R. GERSTEIN, nee: RICH (SUBJECT's sister) and revealed nothing of an unfavorable nature.

7. On 28 April 1959, the files of the New York City Field Office of the FBI were reviewed for Special Agent KEYES, concerning MORRIS RICH and revealed nothing of an unfavorable nature.

STANLEY ROBERT RICH

DETAILS:

8. On 30 April 1959, the files of the NYCPD BSS were reviewed for Special Agent KEYES, concerning [REDACTED] of [REDACTED] New York, and [REDACTED] and revealed that one [REDACTED] New York, is listed as a signer of Communist Party Nominating Petitions, NYC Board of Elections, 30 September 1940, 23a CD, page number 272, and as having endorsed Communist Party Electoral College Nominees for National Election, 1940. b7c

9. On 4 May 1959, the files of the New York City Field Office of the FBI were reviewed for Special Agent KEYES, concerning RHODA R. GERSTEIN, nee: RICH (SUBJECT's sister) and SHIRLEY RICH, nee: COHEN (SUBJECT's wife) and revealed nothing in addition to that reported previously to OSI re STANLEY ROBERT RICH.

10. On 6 May 1959, the files of the NYCPD BCI were reviewed for Special Agent KEYES, concerning MORRIS RICH (SUBJECT's father), SHIRLEY RICH, nee: COHEN (SUBJECT's wife) and RHODA R. GERSTEIN, nee: RICH (SUBJECT's sister) and revealed nothing of an unfavorable nature.

11. On 11 May 1959, the files of the NYC Field Office of the FBI were reviewed for Special Agent KEYES concerning SUBJECT and revealed nothing in addition to that reported previously to OSI.

12. On 10-14 April 1959, Special Agent SCHARFMAN reviewed the records of the New York County Board of Elections concerning MORRIS and MINNIE RICH (SUBJECT's father and mother), 4761 Broadway, New York City. While residing at 34 Post Avenue, NYC, MINNIE RICH registered a preference for one of the major political parties for the year 1935, and there was no record of her registering for the years 1933-1934. While residing at 4761 Broadway, New York City, MINNIE RICH registered a preference for one of the major political parties for the years 1937, 1940, 1944, 1946, 1948-1952, 1954-1955 and 1957, and there was no record of her having registered for the years 1936, 1938-1939, 1941-1943, 1945, 1947, 1953 and 1956. While residing

~~CONFIDENTIAL~~

DETAILS:

at 34 Post Avenue, New York City, MORRIS RICH registered a preference for one of the major political parties for the year 1935, and there was no record of him registering for the years 1933-1934. While residing at [REDACTED] New York City, MORRIS RICH registered a preference for one of the major political parties for the years 1935, 1937, 1940, 1944 - 1946, 1948 - 1952, 1954 - 1956, and there was no record of him registering for the years 1936, 1938 - 1939, 1941 - 1943, 1947, 1953 and 1957.

13. On 7 May 1959, Special Agent COMBS reviewed the records of the New York County Board of Elections in an attempt to determine the party preference of STANLEY ROBERT RICH (SUBJECT), 4761 Broadway, New York City, for the years 1933-1957. There was no record of SUBJECT having registered during those years.

14. On 7 May 1959, Special Agent COMBS reviewed the records of the New York County Board of Elections concerning [REDACTED] New York City. [REDACTED] registered a preference for the American Labor Party for the years 1943-1945. There was no record of [REDACTED] having registered for the years 1942 and 1946-1957.

AT BRONX, NEW YORK

15. On 11 May 1959, Special Agent COMBS reviewed the records of the Bronx County Board of Elections concerning SHIRLEY RICH, nee COHEN (SUBJECT's wife), 2112 Davidson Avenue, Bronx, New York. There was no record of SHIRLEY RICH having registered a preference for a political party for the years 1935 - 1957. One [REDACTED], N.Y., was listed as having registered a preference for the American Labor Party for the year 1938, and for one of the major political parties for the years 1941 - 1942. There was no record of [REDACTED] having registered for the years 1935-1937 and 1943 - 1957. (See paragraph 8 above re [REDACTED]).

DETAILS:

AT NEW YORK, NEW YORK

16. On 7 May 1959, Special Agent COMBS reviewed the records of the New York County Board of Elections, concerning JACOB RADIN, listed reference, [REDACTED] New York City. JACOB RADIN registered a preference for one of the major political parties for the years 1944-1957.

17. On 7 May 1959, reporting agent interviewed Rabbi JACOB RADIN. RADIN advised that he had known SUBJECT and SUBJECT's mother, father and sister approximately twenty-five years as a family friend and as members of his congregation, and that he last saw SUBJECT approximately one year ago at the time SUBJECT's father died. RADIN stated that he believed SUBJECT is a graduate of the City College of New York, and that subsequent to graduation SUBJECT was employed by the Government in Washington, D.C., and that he believed SUBJECT is currently self-employed. RADIN said he believed SUBJECT is honest, dependable, trustworthy and loyal to the US Government. Interviewee stated that he had no knowledge of any foreign travel or foreign connections on the part of SUBJECT, nor has SUBJECT associated with persons of questionable character. RADIN further stated that he had no knowledge of SUBJECT belonging to any organizations, nor of SUBJECT being arrested. RADIN concluded by stating that SUBJECT comes from a good family, and that he would recommend SUBJECT for a position of trust.

SYNOPSIS

FBI HQ files reflect that SUBJECT's brother-in-law, JEROME WILLIAM GERSTEN, and sister, RHODA GERSTEN nee RICH, reportedly made statements indicating sympathy to cause of Chinese Communists; that they were friendly with an active CP member and leader of APC; that they had a Chinese couple from Communist China as guests in their home; that they indicated pro-Soviet sympathies; that they and GERSTEN's parents had registered for the ALP; that SUBJECT was described as a "loud mouth," aggressive and offensive type of Communist; that SUBJECT's sister was described as a more determined type of Communist; that SUBJECT reportedly admitted membership in organization which became a unit of the YCL; that SUBJECT admittedly attended several closed meetings of the YCL; and that GERSTEN, in preparing a paper on physical medicine at Mayo Clinic, had given credit solely to a Russian scientist for work in certain field while the source from which he prepared his paper had given equal credit to an American, English and Russian scientist.

DETAILS:

AT SUITLAND HALL, SUITLAND, MARYLAND

1. On 8 July 1959, in response to a request for a check of their files concerning SUBJECT's brother-in-law, JEROME WILLIAM GERSTEN, the FBI Headquarters (FBI-HQ) furnished eight (8) Reports of Investigation regarding GERSTEN which are attached as inclosures to this report for the Office of Origin.

A review of FBI report, dated 9 March 1953, at Minneapolis, Minnesota, reflects the following pertinent security information:

Dr. JULIA HERRICK, 718 Fifth Street Southwest, Rochester, Minnesota, a Research Physicist at Mayo Clinic, advised that GERSTEN, in preparing a paper on physical medicine at the clinic, had given what she considered unnecessary credit to a Russian scientist for work in a certain field. Dr. HERRICK stated that the source from which GERSTEN prepared his paper had given equal credit to three scientists, an American, an Englishman, and a Russian, but that GERSTEN had eliminated the American and British references, giving all the credit to the Russian scientist. Dr. HERRICK stated that this was called to GERSTEN's attention and he eliminated this material from his paper prior to the time it was published.

A review of FBI report, dated 12 March 1953, at New York, New York, reflects the following pertinent security information:

Mr. MELVIN TANCHER, 1420 College Avenue, Bronx, New York, who was interviewed during an investigation previously conducted concerning STANLEY ROBERT RICH (SUBJECT), advised that RICH's sister, RHODA GERSTEN nee RICH, was a more determined type of Communist than SUBJECT. He described SUBJECT as a "loud mouth," aggressive and offensive type of Communist.

When reinterviewed, TANCHER advised that he was a fellow student of SUBJECT in the School of Engineering at the College of the City of New York (CCNY) class of 1938. TANCHER advised that he recalled attending a school party on the campus of CCNY in 1937 or 1938, and SUBJECT's sister was also there. He stated that he remembered SUBJECT's sister appeared to be a more determined type of Communist than SUBJECT, although TANCHER was unable to recall any specific statements made by SUBJECT's sister. He advised that the general tenor of SUBJECT's sister's statements was very pro-Russian and pro-Communist.

Confidential Informant New York City T-1, of known reliability, advised during the Summer of 1950 that SUBJECT stated that during his senior year at CCNY he became a member of a group known as the STEINMETZ CLUB, which, according to SUBJECT, was named after the great engineer STEINMETZ, whom SUBJECT described as a well known Socialist. T-1 stated that SUBJECT advised

CONFIDENTIAL

33-3158

that the STEINMETZ CLUB participated in left wing movements and sponsored rallies parallel to the Communist line such as aid to Loyalist Spain, improvement of student conditions and academic freedom. The STEINMETZ CLUB, according to SUBJECT's statement to the informant, became affiliated with the YOUNG COMMUNIST LEAGUE (YCL) and became a unit of that organization. SUBJECT told the informant that he had attended several closed meetings of the YCL.

The YCL has been designated by the Attorney General of the United States pursuant to Executive Order 10450.

This report further reflects that SUBJECT's sister registered for the AMERICAN LABOR PARTY (ALP) in 1943, 1944, 1945 and 1946; that GERSTEIN registered for the ALP in 1938, 1939, 1944, 1945 and 1946; and that GERSTEIN's parents, LOUIS and BESSIE GERSTEIN, registered for the ALP in 1937, 1938 and 1939.

The Guide to Subversive Organizations and Publications, dated 2 January 1957, prepared and released by the Committee on Un-American Activities, U.S. House of Representatives, Washington, D.C., reflects the following concerning the ALP:

"1. 'For years, the Communists have put forth the greatest efforts to capture the entire American Labor Party throughout New York State. They succeeded in capturing the Manhattan and Brooklyn sections of the American Labor Party but outside of New York City they have been unable to win control.' (Special Committee on Un-American Activities, House Report 1311 on the CIO Political Action Committee, March 29, 1944, p. 78.)"

"2. 'Communist dissemination extends into the field of political parties forming political front organizations such as \* \* \* American Labor Party. The Communists are thus enabled to present their candidates for elective office under other than a straight Communist label.' (Internal Security Subcommittee of the Senate Judiciary Committee, Handbook for Americans, S. Doc. 117, April 23, 1956, p. 91.)"

A review of FBI report, dated 1 April 1953, at Denver, Colorado, reflects the following pertinent security information:

"Confidential Informant Denver T-1 of known reliability, in November, 1950, advised appointee and his wife had both made statements in the Informant's presence indicating they were sympathetic to the cause of the Chinese Communists. T-1 also reported that GERSTEIN and wife were friendly with one HELEN GORDON whom the Informant described as a Communist sympathizer and leader of the American Peace Crusade in Denver. Confidential Informant Denver T-2 of known reliability has identified HELEN GORDON as an active Communist Party member residing at Denver, Colorado."

"In connection with instant investigation Confidential Informant Denver T-1 was re-contacted in February, 1953, at which time the Informant advised he had been in the Appointee's presence on a number of occasions within the

CONFIDENTIAL

~~CONFIDENTIAL~~

33-3158

past two or three years. He confirmed the fact that GERSTEN is still friendly with HELEN GORDON and her husband, WILLIAM GORDON, and advised that during a recent conversation with GERSTEN in connection with the

 b7D  
T-1 indicated that GERSTEN on several other occasions has indicated pro-Soviet sympathies in discussing the international situation."

The COMMUNIST PARTY (CP), U.S.A., and the AMERICAN PEACE CRUSADE (APC) have been designated by the Attorney General of the United States pursuant to Executive Order 10450.

2. This report is classified ~~CONFIDENTIAL~~ pursuant to the provisions of paragraph 30c(2)(a), AFR 205-1, because it contains investigative information which requires protection against unauthorized disclosure.

SYNOPSIS

SUBJECT, in sworn statement, admitted membership in Steinmetz Club of Young Communist League during senior year at college, but denied any contact with Communists since that time. He advised that his wife was office worker for International Workers Order (IWO) for approximately 12 to 18 months but attended only required meeting of employees, and associated with other employees only as co-worker. SUBJECT denied close association with his sister and her husband, and denied knowledge of their past preference for American Labor Party (ALP). SUBJECT admitted attending camp with left wing atmosphere but denied he was aware of this until his arrival there. SUBJECT stated he and his wife detest Communists, Socialism and all forms of collectivism.

DETAILS:

1. The title of this report is marked "CHANGED" to reflect the new address of SUBJECT's place of employment. The title of the previous report was

(U) STANLEY ROBERT RICH (DOB: 21 Oct 17)  
Civilian, Employee:  
The General Ultrasonics Company  
Subsidiary of Acoustics Association, Inc.  
67 Mulberry Street  
Hartford, Connecticut

2. The writer was assisted in this investigation by Special Agents JOHN J. STICCA and NORMAN C. KAYSER.

AT NEW HAVEN, CONNECTICUT

3. On 24 August 1959, S/A STICCA coordinated this investigation with S/A ROBERT C. PUCKETT, FBI Field Office, 205 Church Street. PUCKETT advised that the FBI did not desire to reinterview SUBJECT or participate in a joint interview of SUBJECT with OSI.

AT BLOOMFIELD, CONNECTICUT

4. On 2, 3 September 1959, the writer and S/A KAYSER interviewed SUBJECT at his office after the writer first read to him the 5th Amendment to the Constitution of the United States, advised him of his rights thereunder, informed him of the nature of the investigation, and advised him of his rights to legal counsel. On 3 September 1959, SUBJECT executed a sworn statement in which he admitted membership in the Steinmetz Club of the Young Communist League during his senior year at City College, New York, N. Y. (CCNY). SUBJECT advised that his wife was employed as an office worker for 12-18 months during 1937-1938 for the International Workers Order (IWO). SUBJECT denied that he had attended any meeting or participated in the activities of any organizations listed in AFR 124-5 and AFR 124-5A, other than while he was a member of the Steinmetz Club; and that during this period he attended 6 to 8 meetings and participated in its activities only in discussions and conversations. He stated that, to the best of his knowledge, his wife did not attend any meetings of the IWO, except those that were required by all employees.

SUBJECT admitted, while a member of the Steinmetz Club, associating with known Communists, but denied that he associated with them socially or ever visited their homes. He stated that he did not know the names of any of the persons with whom his wife associated while she was employed by IWO, and that these associations were only as co-worker. SUBJECT admitted that, while he was a member of the Steinmetz Club, he occasionally read the newspaper, Worker or Daily Worker, and that he bought pamphlets distributed by the Club; but that he did not subscribe to any publication or periodical published by any organizations listed in AFR 124-5 and AFR 124-5A. He stated that neither he nor his family had ever been solicited to join, participate in or otherwise support any

CONFIDENTIAL

AT BLOOM HILL, CONNECTICUT (cont'd)

of the organizations listed in AFR 124-5 and AFR 124-5A except the Steinmota Club at CCNY.

SUBJECT advised that he has no close association with his sister and her husband, and that neither have ever attempted to influence him adversely against the United States. He further advised that he had no knowledge of their past preference for the American Labor Party (ALP), nor had he ever discussed Communism with them. He stated that he had heard them make anti-Communist remarks on several occasions. SUBJECT stated that neither he nor his family had ever been approached by a representative of a foreign power, nor had anyone ever attempted to elicit classified information from him.

SUBJECT admitted attending a camp at Allaven Acres, Phoenicia, N. Y. during 1942, but he stated he did so because he saw the camp advertisement in a New York paper and the rates were reasonable enough for him to afford. He advised that after he arrived at the camp he realized that it had a left wing atmosphere, and for that reason he never returned to the camp. SUBJECT denied making such a statement that if he developed any subsonic waves he would see that Russia got the information as well as the Bureau of Naval Ordnance. He advised that the term "subsonic waves" has no technical meaning or military value. SUBJECT stated that since he left college in 1933 he had not been in contact with any Communists, and that he and his wife have nothing but loathing for the entire Red movement; that they have nothing but contempt for Communists and their ideals, and for Socialism or any form of collectivism.

The original statement executed by SUBJECT is being retained in the files of District Office No. 1 and will be released to proper authority upon request. Copy of this statement is attached to this report as an inclosure.

5. Classified CONFIDENTIAL to protect against unauthorized disclosure of investigative information.

STATEMENT

6 Tobey Road, Bloomfield, Conn.  
(Place)

7 September 1959  
(Date)

Conn.

I, STANLEY ROBERT RICH, 363 N. Quaker Lane, W. Hartford, hereby state that before I was interrogated by or requested to furnish a statement to JOHN H. EMMY, who identified himself to me as a Special Agent of the Office of Special Investigations, United States Air Force, this Special Agent read ~~(the Fifth Amendment to the Constitution)~~ 544 ~~(Fifth Amendment to the Constitution)~~ to me and informed me that the nature of the offense ~~(against me)~~ he is investigating and in which I am suspected of being involved is ~~(as follows)~~ as follows: alleged Communist membership and/or sympathies on my part or the part of my family.

and advised me that I did not have to make any statement regarding this ~~(offense)~~ or any statement at all, and that any statement made by me may be used as evidence against me in a trial by court-martial or other court of competent jurisdiction.

I hereby further state that, after the aforementioned explanation, I do hereby voluntarily and of my own free will make the following statement without having been subjected to any coercion, unlawful influence or unlawful inducement and without any promise of reward, benefit, or any immunity having been made to me:

Q: Please state your full name, address, and date and place of birth.

A: My full name is STANLEY ROBERT RICH. I live at 363 North Quaker Lane, West Hartford, Connecticut. I was born 21 October 1917 at New York, N. Y.

Q: Please state your occupation and business address.

A: I am president of The Central Ultrasonics Company, 6 Tobey Road, Bloomfield, Connecticut.

Q: Have you, or any member of your family, to your knowledge, ever been a member or associated with any organization listed in AFR 124-5 and AFR 124-5A?

A: While I was attending City College, New York, N. Y. (CCNY) I joined the ~~S.C.C.~~ ~~Septembris Club~~ of the Young Communist League. I was a member of this organization for one school year, my senior year, during 1937-1938. After graduation, I had nothing more to do with this organization or the members. This is the only organization of which I was a member that had any connection with any organizations listed in the above cited AFR.

For approximately one year to one year and a half during 1937-1938, my wife worked as an office worker for the International Workers Order (IWO) in New

Statement of STANLEY ROBERT RICH

New York City. This was prior to our marriage. My wife took this job because jobs were hard to find at this period. After she worked there for awhile she became aware of its activities, and she completely detested the organization and its activities. She left this organization after I graduated from college and got her another job. *in Washington DC* SRR

Q: Have you, or any member of your family, to your knowledge, ever attended any meeting or participated in the activities of any organization listed in AFR 124-5 and AFR 124-5A?

A: During my senior year at CCNY and while I was a member of the Steinmetz Club, I attended 5-6 meetings. I held no office in this organization nor did I participate in its activities except in discussions and conversations. To the best of my knowledge, my wife did not attend any meetings of the IWO except those that were required of all employees.

Q: Have you, or any member of your family, to your knowledge, ever associated with or known any person who you had reason to believe was a member of or sympathetic to any organizations listed in AFR 124-5 and AFR 124-5A?

A: During the period that I was a member of the Steinmetz Club of CCNY, I knew and associated with other members. I do not remember all the names of the persons, but I do remember JULIUS ROSENBERG, MAX ELTPORER, MORTON SOBELL, and a SUESSMAN. I do not remember SUESSMAN's first name. There were others but I do not recall their names. I knew these persons as members of the Steinmetz Club at CCNY. I did not associate socially with them, nor did I visit their homes. I particularly disliked SOBELL and he disliked me. To the best of my knowledge, my wife associated with the personnel of the IWO only as a co-worker. I do not know the names of any of these persons.

Q: Have you, or any member of your family, to your knowledge, ever subscribed to or regularly read any publications or periodicals published by any organizations listed in AFR 124-5 and AFR 124-5A?

*SRR* A: During the period of my membership in the Steinmetz Club at CCNY, I read *the Worker or Daily Worker*. I did not subscribe to any publication or periodical published by any organizations listed in AFR 124-5 and AFR 124-5A. I bought pamphlets distributed by the Club.

Q: Have you, or any member of your family, to your knowledge, ever been solicited to join, participate in, or otherwise support any of the activities or objectives of any of the organizations listed in AFR 124-5 and AFR 124-5A?

*SRR* A: None, except the Steinmetz Club at CCNY.

Q: What is the nature, degree and recency of your association with your sister and her husband?

A: I saw them about every 2 or 3 years. The last time I saw them was in 1952.

Statement of CHARLEY ROBERT RICH

Q: What knowledge do you have concerning your sister's and her husband's past preference for the American Labor Party?

A: None.

Q: Have you ever discussed Communism with your sister and her husband?

A: No.

Q: What knowledge do you have concerning your sister's and her husband's feelings concerning Communism, Russia and Communist China?

Q: A: Not much. I have heard them make anti-Communist remarks on several occasions.

Q: Has either your sister or her husband ever tried to influence you adversely against the United States?

A: No, never.

Q: To your knowledge, have you or any member of your family, ever been approached by a representative of a foreign power?

A: No.

Q: Has anyone ever attempted to elicit classified information from you?

A: No.

Q: Are you acquainted with HELEN GORDON?

A: To the best of my knowledge, I have never met her or heard her name mentioned.

Q: Did you, while a resident of 1316 Delafield Place, Washington, D.C., make a statement to the effect that if you developed any subsonic waves you would see that Russia got the information as well as the Bureau of Naval Ordnance?

A: I never made such a statement at any time. Subsonic waves have no technical meaning or military value. Whoever said I made such a statement is a malicious liar.

Q: Did you attend a camp at Arden Acres in Pleasantville, N. Y. during the summer of 1947?

A: Yes, and only for that one occasion.

Q: Were you aware that this camp was attended by a number of Communists, and that the entertainment included propaganda favorable to the Russians?

A: I was not aware of this before I went to the camp. After I was there, I realized that the camp had a left wing atmosphere. That is the reason I never returned to this camp.

Statement of STANLEY ROBERT RICH

Q: What were your reasons for attending this camp?

A: Because the price was one that I could afford.

Q: How did you happen to select this particular camp?

A: I saw it advertised in the New York Times and at a price I could afford. There was no indication that the camp was different from other camps. At that time I was in need of a vacation and wanted to go to some quiet camp.

Q: Do you have any information concerning your activities during any other period of your life that you would like to state?

A: No. My only contact with the Communists was while I was a member of the Student's Club at CCNY. Since that time I have not been in contact with any Communists or other subversive persons or organizations. *For over 21 years - I have never had any contact with anything but feeling in the index and movement. SK*

Q: What are your present views of yourself and your wife concerning Communism and Soviet Russia?

A: We believe that Communism and Soviet Russia are a definite threat to our way of life. We have nothing but contempt for Communists and their ideals, *and also for Socialism in any form of collectivism. SK*

Q: Would you like to add anything to this statement?

A: I would like to say that I consider myself and my wife to be loyal Americans. The United States has been good to me. I am well off financially. I believe I can give valuable service to the United States of America. This is the biggest reason I want to get everything concerning this investigation cleared up. *- so that I can safely my interest and freedom of action in my own country. SK*

I further state that I have read this entire statement, initialed all pages and corrections, and signed this statement, and that it is correct and true as written.

INDUSTRIAL EMPLOYMENT REVIEW BOARD

NRPIE

1 April 1952

Gentlemen:

Reference is made to the appeal of Rich-Roth Laboratories before the Industrial Employment Review Board from the denial of access to classified military information by the Army-Navy-Air Force Personnel Security Board on 27 September 1951.

This Board has reversed in part the determination of the Army-Navy-Air Force Personnel Security Board, which denied appellant's access to classified military information and/or material. Therefore the Industrial Employment Review Board, in accordance with the provisions of its charter and procedures governing appeals, dated 7 November 1949 (revised 10 November 1950), grants the consent of the Secretaries of the Army, Navy and Air Force to the appellant for access to classified military information and/or material through CONFIDENTIAL, subject to existing security regulations and agreements.

This decision is based upon all the evidence contained in the case file, together with the evidence presented at the hearings on 10 March and 19 March 1951, and additional documentary evidence presented in behalf of the appellant.

Sincerely yours,

SIGNED

J. TENNEY MASON

INFORMATION

MBPE

1 April 1952

Dear Mr. Rich:

Reference is made to the appeal of your case to the Industrial Employment Review Board from a revocation of clearance for your access to classified military information by the Army-Navy-Air Force Personnel Security Board on 27 September 1951.

The Industrial Employment Review Board has rendered a decision in your case on the basis of all the evidence presented before this Board at the hearings on 10 and 19 March 1952, and the material contained in the case file.

This Board has decided to reverse in part the determination of the Army-Navy-Air Force Personnel Security Board which revoked your clearance for access to classified military information and/or material. The request by the Rich-Roth Laboratories for authorization for your access to contract work and information of the Departments of the Army, Navy or Air Force is therefore GRANTED through CONFIDENTIAL, and the Secretaries of the Army, Navy and Air Force withdraw any objection to your access to classified military information through CONFIDENTIAL.

This authorization is specifically limited to the Rich-Roth Laboratories, East Hartford, Connecticut, and if you should be desired for employment by some other employer, request for authorization to so employ you must be made by the prospective employer. Furthermore, if your connection with the Rich-Roth Laboratories, East Hartford, Connecticut, is terminated for any reason and, at a later date your reemployment is desired on classified military information and/or material, a new authorization must be requested.

Sincerely yours,

**DETAILS:**

**AT BETHLEHEM, PA.**

1. On 13 January 1953, [REDACTED] was interviewed and stated that although he never attended the John Reed Club he recalls it was located on the second floor of a building on 6th Avenue between 9th and 10th Streets, New York, N. Y. [REDACTED] stated that SUBJECT had advised him during the course of a conversation that EMMEL ROSENBERG whom he [REDACTED] believes is the person now awaiting execution for treason, was a member of the John Reed Club.

[REDACTED] added that he has no further knowledge of the name or location of the Communist Camp in the Adirondack Mountains which he stated [REDACTED] attended. [REDACTED] advised that SUBJECT went to this camp with a person by the name of [REDACTED] a very tall and thin person, no further description, who was one of Subject's co-workers at that time with the New York City Department of Welfare. [REDACTED] added that he recalls SUBJECT relating his experiences after returning from this camp in the Adirondack Mountains, that he had slept in a dormitory with a mixed group of people, composed of different races and sex. [REDACTED] advised that he was not interested in this conversation so had not asked for further details.

[REDACTED] said that the only person whom he could recall who was in any way associated with SUBJECT while employed with the New York Department of Welfare was a woman by the name of BARCKE, (phonetic), first name unknown to [REDACTED] whom he described as being a very stout, middle-aged woman, with whom [REDACTED] had held long discussions. [REDACTED] stated that while he [REDACTED] was employed with the New York Department of Welfare he associated only with [REDACTED] as he disliked all the other personnel in that department. [REDACTED] could furnish no names of his or SUBJECT's co-workers.

MEMORANDUM:

TO : District Commander  
2d District OSI (IO) USAF  
72 East 10th Street  
New York 3, New York

1. On 19 November 1953, during course of routine background investigation at Beach Haven, New Jersey, Special Agent LOUIS O. HERCK interviewed Contractor, Beach Haven, New Jersey, advised during course of conversation that he was a member of the 5th Ranger Battalion during World War II and had resided at Beach Haven, New Jersey, since his discharge. Advised that and his partner both believed to be mentioned by and as Communists, were in the building business at Harvey Cedars, New Jersey, and at the present time were doing some land reclamation at Lovelady, New Jersey, for a concern headed by From New York, and known as the Lovelady Land Development Corporation. According to the rumor has it that the money back of the Lovelady Land Development Corporation is coming from the EMANUEL BLOOM family. Beach Haven, Harvey Cedars and Lovelady are all located on an island known as Long Beach Township and approximately four miles from Manahawick, New Jersey. Barnegat Inlet is located just to the north of Lovelady and the dredging which and are doing for Lovelady Land Development Corporation affords deep water into Barnegat Bay. Further advised that according to rumor, and were making too much for their property and were selling to a group of Communists. Further advised that HOWARD E. SHIFER, Mayor, Brant Beach, New Jersey, could furnish considerable information as to what was actually being place concerning and

THIS CASE ORIGINATED AT NEW YORK

WFO FILE NO. 65-5543

REPORT MADE AT WASHINGTON, D.C.	DATE WHEN MADE 11/30/50	PERIOD FOR WHICH MADE 9/4-6, 11, 12, 14, 19/ 10, 16, 17, 24, 27, 30, 31; 11/2-4, 17, 18/50	REPORT MADE BY JOHN P. BUSCHER JPB:JG
TITLE WILLIAM PERL, wa.		CHARACTER OF CASE ESPIONAGE - R	

**SYNOPSIS OF FACTS:**

Copies of pamphlet "Money-Saving Main Dishes" obtained. No record available of correspondence requesting Department Agriculture publications. PERL requested use VON KARMAN's car in April or May, 1948. T. E. BEEHAN, Aerojet Engineering Corporation, Azusa, California, had power of attorney for VON KARMAN and his sister. Correspondence between BEEHAN and PERL describes circumstances of car registration. BEEHAN executed forms for PERL for New York and Ohio 1948 registration. PERL knew whereabouts of combination and keys VON KARMAN's safe, Columbia University. R. GALLAGHER until November 15, 1950, employed Pentagon, VON KARMAN's office. E. MEYERS is ETHEL MEYERS GREENBERG, VON KARMAN's secretary July to September, 1947, at 570 Lexington Avenue, New York.

DETAILS:

AT WASHINGTON, D.C.

INVESTIGATION REGARDING POST CARDS

Previous investigation by the Cleveland Office revealed that on or about July 29, 1950, one S. PERL, Tiffany Street, Bronx, New York, requested the Department of Agriculture, Washington, D.C., to forward copies of a pamphlet entitled "Money-Saving Main Dishes" to the following individuals:

WILLIAM PERL  
16802 Larchwood  
Cleveland, Ohio

~~SOL~~ KISCHNER  
1387 (or 7387) Boscobel  
Bronx, New York

~~EDWARD~~ GOLDZAND  
263 East Gun Hill Road  
Bronx, New York

SAM PERL  
81 Rue de Maugeuge  
Paris, France

~~PATRICK~~ FLOOD  
137 East 238th Street  
Bronx, New York

Mrs. ROBY W. STEHR, Clerk, Office of Information - Free Publications Section, Department of Agriculture, furnished two copies of Leaflet #AIS-69 and two copies of a reissue of the same leaflet, identified as Leaflet #289, all four entitled "Money-Saving Main Dishes", issued by the Office for Food and Feed Conservation, United States Department of Agriculture.

Mrs. STEHR advised that no record of correspondence is kept of persons who write or telephone in to the department for this type of material. It was determined that telegrams are filed and may be traced. However, none could be located which related to this investigation.

In an effort to obtain the foregoing information, the following Department of Agriculture employees were interviewed:

Mrs. MARY BRYANT  
Communications and Records Section and  
Office of Information

Mrs. VITURA SANDERS  
Public Inquiries Unit

INFORMATION REGARDING AUTO TRANSACTIONS

Dr. THEODORE VON KARMAN, Air Force Scientific Advisory Board, Room 4-C, 340, the Pentagon, stated that the automobile loaned by him to WILLIAM PERL actually was owned by his sister, Dr. JOSEPHINE deKARMAN, 150 South Marengo Avenue, Pasadena, California. He said his sister is presently temporarily residing in Paris, France. He advised that PERL requested the use of this car in April or May, 1948, before he, VON KARMAN, left for Europe. Due to the influence of his sister, who disliked the idea of PERL keeping the car for a long period, he, VON KARMAN, requested PERL in the fall of 1948 to return the car to CLYDE BROWN. VON KARMAN vaguely described the car as an old model Plymouth coupe of one color, probably blue. He could not recall that the fenders were black. He does not recall having made a personal effort to obtain 1948 registration of the car. Dr. VON KARMAN had no pertinent information to offer concerning PERL. He did not remember ever having met any of PERL's friends. Their association was almost entirely related to VON KARMAN's lectures at Columbia University and PERL's studies there. As his technical assistant, PERL frequently engaged in research work for VON KARMAN, particularly while the latter was in Europe. VON KARMAN had no reason to question PERL's loyalty.

At the time of the interview with Dr. VON KARMAN, he could not recall exactly the complete circumstances surrounding the loan of his sister's car to PERL. Upon returning to Europe shortly after the interview, he wrote to his secretary, Mrs. MARIE RODDENBERY, who, as a result, has forwarded to this office further data relating to the car. VON KARMAN advised Mrs. RODDENBERY that according to ROBERT DALSELL, of the General Tire and Rubber Company, New York City, the car went to DALSELL in September, 1946, with California license plates and was kept in a garage near DALSELL's office until February, 1947.

MARIE D. RODDENBERRY is employed as VON KARMAN's secretary in the offices of the Air Force Scientific Advisory Board, Office of the Deputy Chief of Staff, Room 4-C 340, the Pentagon.

In February, 1947, the New York license plates were put on the car by DALSELL in order to drive VON KARMAN to Princeton University to receive an honorary degree there. DALSELL asked either VON KARMAN or his sister to sign the papers for the new license plates.

On or about February 15, 1947, VON KARMAN gave the car to LILLIAN FRICKER, who delivered the car to CLYDE BROWN's Garage at Glen Ridge, New Jersey.

VON KARMAN made no personal effort to obtain 1948 registration of the car and assumes that PERL made the necessary arrangements. VON KARMAN is aware of the fact that Mr. T. E. BEEHAN, Aerojet Engineering Corporation, Azusa, California, who was given power of attorney on behalf of Dr. VON KARMAN and his sister, enabled PERL to obtain 1948 registration for the car.

Mrs. RODDENBERRY informed that in response to VON KARMAN's concern about his automobile used by PERL, she wrote to Mr. T. E. BEEHAN, who furnished her with a copy of all correspondence which passed between BEEHAN and PERL and BEEHAN and VON KARMAN in connection with the registration of instant car.

By letter of May 21, 1948, PERL informed BEEHAN that Dr. VON KARMAN had given him permission to use the Plymouth coupe. He indicated that he was attempting to get license plates for the car through Mr. HALEY in Washington, D.C., and that if this should fail, he desired Mr. BEEHAN's assistance.

By letter of May 25, 1948, BEEHAN advised VON KARMAN that he had received a letter from PERL concerning the use of the Plymouth coupe. BEEHAN indicated that since the car is owned by VON KARMAN, the registration papers will have to be executed by VON KARMAN through BEEHAN. By letter of the same date, BEEHAN advised PERL that there was no insurance coverage on the Plymouth coupe, and that PERL should apply for registration to the New Jersey authorities. The formal license papers would have to be executed in Dr. VON KARMAN's name by someone having power of attorney for him. BEEHAN offered to execute the registration papers in VON KARMAN's name if such papers could be forwarded by PERL.

By letter of June 1, 1948, BEEHAN advised VON KARMAN that PERL seemed uncertain as to whether the car should be registered in California or New York, but that PERL did send the New York registration form filled in except for the signature. BEEHAN stated that he was executing the New York form and returning it to PERL.

By an undated letter PERL advised BEEHAN that the New Jersey authorities cannot issue a temporary license to PERL, and that he is forwarding the New York application. PERL informed that the car is registered in the name of JOSEPHINE deKARMAN. PERL suggested that California plates might be most convenient, since the car presumably will ultimately be used in California. He stated that if BEEHAN decided on California plates, they be sent to PERL at the NACA Flight Propulsion Research Laboratory, Cleveland Airport, Cleveland, Ohio. He stated that if BEEHAN decides to send the signed New York application, a photostatic copy of power of attorney from JOSEPHINE deKARMAN should be attached. He stated the car would be used mostly in Cleveland until delivered to the KARMANs.

By letter of June 2, 1948, BEEHAN sent PERL the New York registration form executed by BEEHAN for JOSEPHINE deKARMAN and enclosed a photostatic copy of BEEHAN's power of attorney to act for Miss deKARMAN. He also returned the 1936 California registration card, the 1944 California certificate of ownership, and the 1947 New York passenger vehicle registration form. BEEHAN indicated it would be safe to register the car in New York, since California plates could be used only for a brief time before local registration would have to be obtained. BEEHAN then suggested the amount of insurance that should be purchased for this car.

By letter of June 17, 1948, PERL acknowledged receipt of BEEHAN's June 2, 1948, letter and stated that he has now determined it would be more convenient to obtain license plates for Dr. VON KARMAN's car in Cleveland, since he will be using the car there. He enclosed additional documents for BEEHAN's signature in the form of an application for Ohio title and an application for Ohio license plates.

By letter of June 21, 1948, BEEHAN advised the Office of the County Clerk, Los Angeles County, Los Angeles, California, that he was enclosing two notarized documents; an application by owner for 1948 Ohio registration and application for certificate of title. He indicated an enclosure with this letter to the Los Angeles County Clerk of a stamped envelope addressed to WILLIAM PERL, 3200 Franklin Boulevard, Cleveland 13, Ohio. He requested that the documents referred to above be forwarded to PERL in the envelope.

INFORMATION REGARDING DR. VON KARMAN'S SAFES AT COLUMBIA UNIVERSITY  
AND 570 LEXINGTON AVENUE, NEW YORK CITY

Mrs. MARIE D. RODDENBERY advised that two safes, identified as steel cabinets with combination locks, were sent to New York for the use of

Dr. THEODORE VON KARMAN. One was delivered to 570 Lexington Avenue and the other to the Pupin Physics Laboratory, Columbia University. The safe designated for Columbia University, the Pupin Physics Laboratory, was delivered around September 25, 1947. The other, destined to 570 Lexington Avenue, was sent around September 12, 1947, but was later (date unknown) moved to the Pupin Physics Laboratory. Mrs. RODDENBERY found a personal letter from WILLIAM PERL to Dr. VON KARMAN, which was dated November 4, 1949, in which PERL indicated the whereabouts at the Pupin Physics Laboratory of the combination and keys to a safe there. Mrs. RODDENBERY received the inference from this that PERL did have access to VON KARMAN's safe and material contained therein.

INFORMATION REGARDING K. GALLAGHER

Inquiry at the Air Force Scientific Advisory Board, the Pentagon, revealed that K. GALLAGHER is identical with Mrs. KATHERINE GALLAGHER YOUNG, who has been from November, 1947, until November 15, 1950, employed as a secretary in the Office of the Air Force Scientific Advisory Board in Room 4-C 340, the Pentagon.

Mrs. YOUNG advised that she vaguely recalled having received on one occasion a set of NACA documents which were sent to the Air Force Scientific Advisory Board from Columbia University in New York. She indicated that if her recollection is correct, she forwarded these documents to Dr. VON KARMAN, who was at that time in care of the United States Embassy, Paris, France. It is also her recollection that she signed receipts for these documents, and that these documents probably had not been opened since they were mailed from the NACA.

Mrs. MARIE RODDENBERY has advised that from time to time she herself received unopened documents from the Pupin Physics Laboratory at Columbia University with receipts attached, and she signed these receipts and held the documents at the Pentagon for Dr. VON KARMAN. She believed that some of these documents may have emanated from and may have been mailed from the NACA in Washington. She recalled that many documents emanating from different governmental sources throughout the country, not necessarily the NACA, were no doubt sent to her from Columbia University in the absence of anyone there with authority to sign for them during a particular period.

WFO 65-5543

INFORMATION REGARDING ETHEL MEYERS,  
AKA ETHEL MEYERS GREENBERG

Investigation at Washington, D.C., has revealed that the files of the NACA contained a letter directed to the NACA dated July 29, 1947, requesting certain reports on stability and control. This letter was written on the letterhead of Dr. THEODORE VON KARMAN, 570 Lexington Avenue, Room 711, New York 2, New York, and was signed "E. MEYERS for WILLIAM PERL".

Mrs. MARIE RODDENBERRY has recalled that while LILLIAN FRICKER, Dr. VON KARMAN's secretary in New York, was on a vacation, ETHEL MEYERS, also known to Mrs. RODDENBERRY as ETHEL MEYERS GREENBERG, was temporarily hired during July, August, and September, 1947, at 570 Lexington Avenue, New York, as Dr. VON KARMAN's secretary. Mrs. RODDENBERRY is of the opinion that VON KARMAN never met MEYERS, and that MEYERS was discharged upon FRICKER's return in September, 1947.

MISCELLANEOUS

Confidential Informant T-1, of known reliability, advised that in the latter part of 1947 he returned from Europe after having worked with Dr. VON KARMAN on the Continent. He recalls that in connection with some work VON KARMAN was doing, it was necessary that he, T-1, meet PERL in New York to discuss technical matters dealing with aeronautical problems. He recalled that he contacted PERL briefly on or about September 26, 1947, and may have had dinner with PERL at that time. This informant had no information of pertinence to offer with regard to PERL, his work, his associates, or his friends. He did state that he had a distinct recollection that for some reason he did not like PERL but was unable to define the reason for this feeling.

ENCLOSURES TO BUREAU:

Eight photostats of copies of correspondence between Mr. T.E. BEEHAN, WILLIAM PERL, and Dr. THEODORE VON KARMAN.

ENCLOSURES TO NEW YORK:

Four copies of pamphlet entitled "Money-Saving Main Dishes" and eight photostats of copies of correspondence between Mr. T.E. BEEHAN, WILLIAM PERL, and Dr. THEODORE VON KARMAN.

WFO 65-5543

ENCLOSURES TO LOS ANGELES:

Eight photostats of copies of correspondence between Mr. T.E. BEEHAN, WILLIAM PERL, and Dr. THEODORE VON KARMAN.

- PENDING -

ADMINISTRATIVE SHEET

CLEARANCE FOR PERL AND ETHEL MEYERS GREENBERG TO HANDLE CLASSIFIED DOCUMENTS

Mrs. MARIE D. RODDENBERY advised that just prior to August 25, 1947, VON KARMAN requested her to obtain security clearance for WILLIAM PERL to handle classified material.

She addressed a letter dated August 25, 1947, to the Air Provost Marshal, Attention of Colonel MackENZIE, which letter was entitled "Request for Top Secret Clearance". She attached PSQ Forms 19-105 and a fingerprint card on WILLIAM PERL, whom she described in this communication as Technical Assistant to Dr. THEODORE VON KARMAN, Chairman of the Scientific Advisory Board. She requested investigation to be made to permit PERL to have access to classified material up to and including top secret. She stated that this letter went out under the signature of CURTIS E. LEMAY, Deputy Chief of Air Staff for Research and Development.

Mrs. RODDENBERY stated that at a later time, date unknown, she forwarded a similar request on behalf of ETHEL MEYERS GREENBERG.

Mrs. RODDENBERY informed that the results of the investigation concerning the clearance for PERL and GREENBERG were located in the Office of Colonel GILLETTE, Fourth OSI District, Room 268, Post Exchange Building, Bolling Field, District of Columbia.

Inquiry through Mrs. LAURA WILLIAMS, Secretary to Colonel GILLETTE at the above address, revealed that the results of the investigations, above referred to, are not located in the Office of the Fourth OSI District.

Mrs. RODDENBERY is now attempting to determine the whereabouts of these investigative records, and they will be subsequently reported by this office when found. Mrs. RODDENBERY stated her office has no record indicating that PERL and GREENBERG were in fact ever actually given security clearance, and that for this reason, it is very possible that such clearance was never accomplished.

INFORMATION REGARDING LILLIAN FRICKER

Mrs. MARIE D. RODDENBERY advised that LILLIAN FRICKER was first hired by Dr. VON KARMAN as a translator in Switzerland. She was employed later as VON KARMAN's secretary at 570 Lexington Avenue, New York, and probably met WILLIAM PERL through VON KARMAN. She resigned from this position on a date unknown to Mrs. RODDENBERY in order to return to Harvard University to study or teach. Her home address as of the summer of 1948 was believed to be 118 Marlboro Street, Boston, Massachusetts.

ADMINISTRATIVE

MISCELLANEOUS CORRESPONDENCE BETWEEN WILLIAM PERL AND  
DR. VON KARMAN

Mrs. RODDENBERY, after a search of her files, found certain correspondence maintained in Dr. VON KARMAN's file, including original hand-written letters from PERL to VON KARMAN, and copies of correspondence from VON KARMAN to PERL. This correspondence is described as follows:

On August 5, 1947, VON KARMAN addressed a letter to PERL at Cornell University. VON KARMAN is quoted as follows:

"I received your calculations on the 40 x 40 windtunnel. I think it is very well done. I have not had the time yet to look into the details...Last week I visited the French Aerodynamic and Ballistic Laboratory in St. Louis. It is a place where about eighty Germans work on theoretical and experimental problems. The theoretical questions are under the direction of SAUER. They calculate a tremendous number of special problems, especially shock waves."

The letter was sent from the California Hotel, Paris, France.

Under date of August 10, 1947, PERL wrote to VON KARMAN from Cornell University. In part PERL said:

"SEARS is a very nice person. He arranged some wonderful 'bull sessions' with Dr. GOLDSTEIN when the latter was here..."

It is interesting to note that Mrs. MARIE D. RODDENBERY, while making reference to WILLIAM REES SEARS, who was born on March 1, 1913, at Minneapolis, Minnesota, and who is employed at Cornell University as Director of the Graduate School of Aeronautics, recalls having received some information to the effect that SEARS was once considered a poor security risk by a governmental investigation.

By letter dated August 29, 1947, on the letterhead of College of Engineering, Cornell University, Ithaca, New York, Graduate School of Aeronautical Engineering, PERL advised VON KARMAN as follows:

He said he was "returning to New York tomorrow" and made reference to reports which he had just finished, and referred to Professors WILD and

ADMINISTRATIVE

EGTISOUD. He stated: "It has been very nice here at Ithaca. You (meaning VON KARMAN) have a standing invitation from BILL SEARS (apparently meaning WILLIAM REES SEARS) to give one or more lectures up here whenever you wish. He even invited me to give a colloquium talk here during the coming year. I may take him up on it if I get something out of the detached shock problem."

By letter dated December 10, 1947, PERL advised VON KARMAN that he believes there is a swindler using VON KARMAN as a reference. He said that swindler claimed to be referred by a "Mr. DIETRICH" at Allgemeines Elektrizitat in Berlin and in need of money. PERL said he obtained some money from him and "some of the girls at Bechtel". PERL indicated that he reported the matter to the local police.

In correspondence containing no date from PERL to VON KARMAN, addressed from Box 88, Pupin Physics Laboratory, which letter is believed by Mrs. RODDENBERRY to have been written in February, 1948, PERL made reference to VON KARMAN's presence abroad. PERL stated:

"Is there something I can do specifically over there?  
As a matter of fact, I should like to work abroad for  
more or less selfish reasons anyway."

PERL mentioned, in passing, the name of a mutual friend of VON KARMAN and his sister, one PAUL TORDA. He also mentioned a HARRY MOSES, who was a student with PERL, presumably at Columbia University.

Several attempts have been made to reach Mr. ANDREW G. HALEY, an attorney in Washington, D.C., who, according to Mrs. RODDENBERRY, was the recipient of a request by PERL to obtain necessary power of attorney in connection with the securing of current registration of Dr. VON KARMAN's car. Mrs. RODDENBERRY believed that LILLIAN FRICKER had told PERL that ANDREW G. HALEY, a friend of Dr. VON KARMAN's, held power of attorney on behalf of the KARMANs.

Inquiry was made at 1705 "K" Street, N.W.; Room 705, Transportation Building, the L. S. Mohler Real Estate Company at 1101 Connecticut Avenue, N.W.; and at 3515 Huntington Street, N.W. It was ascertained that Mr. ANDREW G. HALEY is presently out of the city until about December 1, 1950.

It is noted that Dr. THEODORE VON KARMAN is quite elderly, is in the seventies, and has a poor command of the English language. At the time of his interview by the writer he was briefly visiting in this country

ADMINISTRATIVE

and due to plans to immediately return to Europe, his time for the interview was very limited.

According to Mrs. MARIE RODDENBERY, Dr. VON KARMAN is expected to return to this country from Europe in the latter part of December, 1950. Specific questions will be asked him at that time, dealing with the following:

1. Whether VON KARMAN, in fact, requested PERL or E. MEYERS to procure copies of NACA reports on stability and control.
2. Whether VON KARMAN, in fact, requested PERL to obtain a copy of the NACA Index of Classified Publications.
3. If PERL asked for VON KARMAN's written opinion on any subject matter involving classified data, which requests would appear to VON KARMAN to be foreign to any work in which PERL was engaged at the time the request was made.

It is felt that it should be determined if possible whether PERL at any time might have secured answers to highly technical aeronautical problems which PERL normally would not be working with. In this direction, it is noted that VON KARMAN's letter of August 5, 1947, addressed to PERL at Cornell University was obviously in answer to a letter from PERL regarding aeronautical calculations.

Four copies of the pamphlets entitled "Money-Saving Main Dishes" are being forwarded herewith to the New York Division.

Photostatic copies of correspondence between T. E. BEEHAN and PERL and BEEHAN and Dr. VON KARMAN are being furnished to the Bureau, the New York, and Los Angeles Divisions.

Mrs. MARIE RODDENBERY believes that Mr. BEEHAN, in California, probably has retained the original correspondence, and that same would be available to the Bureau if necessary.

LEADS

NEW YORK DIVISION

AT NEW YORK, NEW YORK

Unless ETHEL MEYERS GREENBERG can be readily identified through the files of the New York office, will hold the following lead in abeyance pending more definite information regarding her whereabouts, to be furnished by the Washington Field Office:

ETHEL MEYERS GREENBERG should be asked the circumstances involving the request of NACA reports on stability and control, as outlined in the report of Special Agent JOHN P. BUSCHER dated at Washington, D.C., on September 21, 1950. It should be determined whether these requests emanated directly from VON KAMAN or through PERL and what other correspondence was involved regarding these reports. GREENBERG should be questioned concerning her knowledge of PERL, his associates, friends, etc., and other matters pertinent to this investigation.

ALBANY DIVISION

AT ALBANY, NEW YORK

Will review Albany indices regarding WILLIAM REES SEARS, who reportedly is director of the Graduate School of Aeronautics, Cornell University. He is referred to on pages 10 and 11 of this report as a friend or associate of WILLIAM PERL.

WASHINGTON FIELD OFFICE

AT WASHINGTON, D.C.

Will interview after December 1, 1950, Mr. ARTHUR G. HALEY at his office at 1101 Connecticut Avenue, N.W., or at his residence at 3511 Huntington Street, N.W., to determine the nature of correspondence which he has had with PERL.

LEADS (CONT'D)

Will recontact Mrs. MARIE D. RODDENBERY, Air Force Scientific Advisory Board, Room 4-C 340, the Pentagon, concerning the location of the security clearance investigations on WILLIAM PERL and ETHEL MEYERS GREENBERG.

Will determine through Mrs. RODDENBERY the date of return of Dr. THEODORE VON KARMAN and will reinterview VON KARMAN in connection with the additional information developed in this investigation, as outlined in this report.

Will recontact Mrs. MARIE RODDENBERY, who is attempting to locate an address of ETHEL MEYERS GREENBERG. Will immediately furnish this information to New York in order that GREENBERG may be interviewed.

INFORMANT SHEET

T-1 - Lieutenant Colonel THEODORE WALKOWICZ, Executive  
Officer to Dr. RIDENOUR, who is Special Assistant to the Secretary of  
the Air Force. WALKOWICZ's office is at 17-D-931, the Pentagon.  
His identity is being protected at his request.

Dear Mr. Beehan,

Dr. von Karman has given me the use of his Plymouth coupe. I should like to know whether any insurance exists on it. Miss Pricker thinks you would know. The car has been in storage here in New Jersey for the past year.

I am trying to get license plates for the car through Mr. Haley in Washington, D. C. Should this fail, could you get them for me.

Any help you can render in this matter will be much appreciated.

Yours very truly,

/s/ WILLIAM PERL

Tech. Assistant to Dr. von Karman

P.S. After June 1st shall be at

NACA Flight Propulsion Research Laboratory  
Cleveland Airport

May 25, 1948

Mr. William Perl  
Room 227 Pupin Laboratory  
Columbia University  
New York 27, N. Y.

Dear Mr. Perl:

I have your letter of May 21st, and wish to inform you that there is no insurance coverage on the Plymouth coupe.

With respect to license plates, you should apply for registration to the New Jersey authorities. I am informed by the Automobile Club of Southern California that on payment of the fee at your end you will be issued a temporary license for the car, but the formal license papers will have to be executed in Dr. von Karmen's name by someone having power of attorney for him. If you will forward the registration papers to me I shall see that they are executed in Dr. von Karmen's name so that the permanent plates issue.

Very truly yours,

T. E. Beehan

May 25, 1948

Dr. Theodore von Karman  
Hotel California  
16 Rue de Berri  
Paris, 8e, France

Dear Doctor:

As I write this letter I have just opened your letter of May 17th, wherein you reply with regard to Mr. Francois and Mr. Dorand. Unless we hear further from you we shall forget Mr. Dorand's question on the helicopter plant problem.

I am enclosing the New York Curb weekly summary for the week ending May 22.

I have just had a letter from Mr. Perl informing me that you have given him the use of the Plymouth coupe. In response to his question I am informing him that there is at present no insurance on the car. I presume you have instructed him that there should be some kind of coverage in the event he drives it. Unless you send me instructions to that end I shall not take any steps here to take out insurance. Perl has asked me if I might help him to secure license plates. I have checked the Automobile Club and find that since the car is owned by you, the registration papers will have to be executed by you through me. I am sending this information along to him. I presume he will pay the registration fees at the New York and New Jersey end.

Have you had an opportunity to give some thought to the request of Mr. Torde for our reports on the capacitance type pressure gage developed by Dr. Wolfe of our Research Department.

Enclosed is a summary of operating expenses, interest, depreciation, etc., which I have received from Louis Sekeley in reply to my request for the schedules which were missing from your copy of the partnership income tax return. This is still not as I asked that it be. I specifically asked Sekeley to let me have a copy of the schedules individually as they were referred to on the return. On receipt of the enclosed I telephoned Sekeley to question how the figure on the form under Item #26 Net Income Total \$11,743.32 related to the balance of the figures. He appeared confused and said he could not understand it himself, but since he was not at home he would have to check the figures and call me back. So far he has not called, and I am not delaying any further in sending these data to you.

Sincerely,

T. E. Beehan

Mr. Perl is hot on my trail to appropriate the Plymouth for his use, as I wrote you in my previous letter. He seemed uncertain as to whether the car should be registered in California or New York. In view of the fact that he did send me the New York registration form filled in except for signature, I am executing the New York form and returning it to him so he may pay the registration fee there.

Sincerely

T. E. Beehan

Room 827 Pupin Laboratory  
Columbia University  
New York 27, N. Y.

Mr. T. E. Beehan  
Aerojet Engineering Corp.  
Azusa, California

Dear Mr. Beehan:

Thank you for your letter of the 25th May. The New Jersey authorities inform me that only the original owner or someone with power of attorney can obtain automobile license plates. They cannot issue a temporary license to me. I am therefore enclosing the paper on the car, together with a New York application. Please note that the car is registered in the name of Josephine de Karman.

May I suggest that if you can obtain license plates, California plates may be most convenient to get, inasmuch as I presume the car will ultimately be used in California? If you do decide on California plates could you send them here (to Columbia) but notify me at

NACA Flight Propulsion Research Laboratory  
Cleveland Airport  
Cleveland, Ohio

If you decide to send me the signed New York application, a photostat copy of power of attorney from Josephine de Karman should be attached.

As regards insurance, I can take out a policy here. If you have any reason to suggest a particular kind or company, please let me know. The car will be used mostly in Cleveland, Ohio, until delivered to the Germans.

I have sent a New York application to Miss de Karman to sign but have not (and I understand that I should not) expect to hear from her in the near future.

Thank you very much for your kind help in this matter.

Very truly yours,

/s/ WILLIAM PERL

## ENGINEERING CORPORATION

AZUSA, CALIFORNIA • TELEPHONES: LOS ANGELES CUMBERLAND 3-2735 • AZUSA HU 1800 7-1211

June 2, 1948

TEB:ma

Mr. William Perl  
Room 827 Pupin Laboratory  
Columbia University  
New York 27, New York

Dear Mr. Perl:

Enclosed herewith is the State of New York registration form executed by me for Josephine de Karman. As you requested, I am enclosing a photostatic copy of my Power of Attorney to act for Miss de Karman. I am also returning the 1936 California registration card, the 1944 California Automobile Certificate of Ownership, and the 1947 New York Passenger Vehicle Registration form which you sent me recently. I think all of the forms should be kept in the car for possible future reference by Dr. or his sister.

I think it is a safer procedure to register the car in New York, in view of the fact that the California plates could be used for only a brief period of time back there before a local registration would have to be obtained.

Regarding your inquiry on insurance I am at a loss to advise you just what coverage to take out in view of my lack of knowledge as to how extensive your use of the car is going to be. I can tell you that in the case of Doctor's Hummobile, which he keeps here in Pasadena, the coverage maintained by him is as follows:

Comprehensive including Fire & Theft	
Collision or Upset (\$50.00 deductible)	
Property Damage Liability	\$5,000.00
Bodily Injury Liability \$25,000 each person	\$100,000 each accident
Medical Payments — each person	\$1,000.00

Any reputable insurance firm can handle your policy.

Very truly yours,

T. E. Beehan, Secretary-Treasurer

## Office Memorandum • UNITED STATES GOVERNMENT

TO : DIRECTOR, FBI (65-59312)

DATE: November 16, 1951

FROM : SAC, WFO (65-5543)

SUBJECT: WILLIAM PERL, aka  
ESPIONAGE - R  
PERJURY

Rebulet to New York dated October 15, 1951.

Major MARK P. MAIER, Deputy Secretary, Scientific Advisory Board, Office of Chief of Staff, Pentagon, advised he assisted VON KARMAN in June, 1951, in removing VON KARMAN's files from Columbia University.

Major MAIER said 90 % of the NACA reports at that time in the possession of VON KARMAN at Columbia were shipped to the Pentagon and one presently in the custody of Major MAIER. Major MAIER added that the remainder of the NACA reports were sent to VON KARMAN's office, Project Vista, Hotel Vista Del Arroyo, Pasadena, California.

Major MAIER stated he and VON KARMAN in company with a Professor KAYIN (probably KAYAN) of Columbia University and a security officer from the New York Procurement Field Office, AAF, burned some of the papers from VON KARMAN's files. In this regard, Major MAIER said that to the best of his recollection the material burned consisted of Weekly Progress Reports of Projects and did not include any NACA reports.

Major MAIER is compiling a list of the NACA reports from VON KARMAN's files at Columbia University which were forwarded to the Pentagon. He has also advised he may be able to locate his list of the material which was burned.

203. A paper on "Problems in Exterior Ballistics" to be presented to the Scientific Advisory Committee on February 11-12, 1947.
204. Estimated Construction Cost Chart of A. E. D. C. Installations published by Sverdrup and Parcel, St. Louis, Missouri, revised as of January 28, 1947, classified confidential

The Bureau's recommendation is requested as to the advisability of forwarding the above material to the FBI Laboratory for appropriate examination in view of FBI Laboratory Report dated January 11, 1952, to the Washington Field Office regarding similar material removed at the same time by KATZ from VON KATZMAN's Columbia University Laboratory and sent to his Pentagon Office. It was noted therein that it would still have been possible to photograph all items submitted without taking them apart. It was further noted that it could not be determined from the evidence itself whether any of these items had been photographed in whole or in part. By Bureau letter to Washington Field Office dated February 26, 1952, it was further noted that only eight latent fingerprints had been developed, all of which were eliminated as being those of Major HANK F. KATZ.

SUBJECT: WILLIAM PERL, aka,  
ESPIONAGE - R; PERJURY

-148300

Rebulet April 30, 1952 in above captioned matter.

Reference is also made to Los Angeles letter dated April 11, 1952 reporting that Mrs. MARIE RODDENBERRY, Personal Secretary to Dr. THEODORE VON KARMAN, 1501 South Marengo Avenue, Pasadena, California, had recently made available to this office various NACA reports and other documents located at Von KARMAN's residence and which had been shipped there from Von KARMAN's former office at Columbia University.

The following 38 classified items listed therein are being submitted to the FBI Laboratory for an appropriate examination along the lines afforded previous documents submitted to the Laboratory, the results of which were reported by FBI Laboratory Report dated January 11, 1952. Specific consideration was then given:

(1) To determine, if possible, whether any of the various items have been taken apart for photographing and then re-assembled.

(2) To determine whether or not any of the items contain the latent fingerprints of the following individuals;

WILLIAM PERL  
JULIUS ROSENBERG  
MICHAEL ALEXANDER SIDOROVITCH  
MAXWELL FINESTONE

## Office Memorandum • UNITED STATES GOVERNMENT

TO : DIRECTOR, FBI (65-59312)

DATE: February 11, 1952

FROM : SAC, WFO (65-5543)

SUBJECT: WILLIAM PERL  
aka  
ESPIONAGE - R  
PERJURY

Rebulet to Washington-Field-Office dated January 4, 1952, and Bulets to New York dated January 22, 1952, and February 4, 1952.

Lieutenant Colonel T. F. WALKOWICZ, Room 5E1019, Pentagon, advised that to the best of his recollection, he was attending school during the spring of 1947, and in June of that year he went to Europe where he was associated with Dr. VON KARMAN. WALKOWICZ continued that while in Europe during the summer of 1947, he prepared the paper entitled, "Theoretical Considerations on Stability and Control at High Speeds." WALKOWICZ said that PERL was familiar with the nature of the information he would need in preparing the paper and since he, WALKOWICZ, did not desire to have a large amount of material sent to him in Europe which he would have to carry about with him, he had arranged for PERL to review the various documents arriving at Dr. VON KARMAN's New York office and then forward to WALKOWICZ only the pertinent material that would be of assistance to him in preparing the paper.

WALKOWICZ stated he could not recall with any certainty the exact material that PERL had forwarded him, but was quite positive it included some NACA reports and translations of German Experiments which had originated from the Air Technical Intelligence at Wright Field, now known as the Central Air Documents Office. WALKOWICZ added that he did recall that one report forwarded to him by PERL dealt with the P-38 airplane, since that was the first plane involving the high speed stability control problem. WALKOWICZ advised his contact with PERL had been limited to seeing him at Dr. VON KARMAN's office and to several luncheons in the vicinity of Columbia University. WALKOWICZ stated he had never known of PERL taking any documents home for study nor had PERL ever aroused his suspicions in any manner. WALKOWICZ explained that although he regarded PERL as a "queer duck" as to personality, he had never had any reason to suspect PERL of improper activities.

EX. 69

Reference Bulet to New York dated February 4, 1952, refers to NACA Report RM L7E29, which was not included with the items submitted to the FBI Laboratory by the Washington Field Office letter of November 30, 1951. It will be noted on page 19 of the report of Special Agent RACE H. SCOVELL dated December 23, 1951, at Washington, D. C., that NACA RM L7E29 was included in a group of reports which WALKONICZ had removed from Dr. VON KARMAN's files at Columbia University. NACA RM L7E29 was receipted for by PERL on October 13, 1947, and a receipt signed by WALKONICZ showing the removal of this NACA Report from Dr. VON KARMAN's files was dated October 26, 1947. During the interview with WALKONICZ, inquiry was made as to his disposition of these items for which he had receipted for on October 26, 1947, to which he replied he had no recollection, but did know he had either returned or destroyed them, but that in any event the proper entry had been made in the records showing his disposition of these items. The records of the Scientific Advisory Board, Pentagon, have not disclosed the final disposition of NACA RM L7E29; however, these records are maintained in a very haphazard manner, in many instances inserted loosely among correspondence in the various correspondence files and in addition to which the present personnel in the office are not familiar with the procedures formerly followed by Mrs. MARIE RODDENBARY.

Major MARK P. MAIER, Deputy Secretary, Scientific Advisory Board, Office of Chief of Staff, Pentagon, advised the Air Force uses the regular military system of classifying documents as restricted, confidential, secret, and top secret. Major MAIER further remarked that under present Air Force procedure, documents classified restricted and confidential are transmitted from office to office within the Air Force without any receipt being executed, but that secret and top secret documents must be receipted for. Major MAIER added that certain types of documents classified confidential are numbered and called registered documents and these registered documents are receipted for. Major MAIER said he was not too familiar with the handling of such classified documents in the past and was not certain whether or not it was formerly necessary to obtain receipts for documents classified restricted and confidential.

Major MAIER further remarked that Dr. VON KARMAN's Office was undoubtedly on the mailing list of many of the Army, Navy, and Air Force research projects and that the original receipts for such confidential documents would have been returned to the forwarding agency.

65-59312-655

Major MAIER added he did not know whether or not Dr. VON KARMAN's Office retained any duplicate copies of such receipts although it is apparent this was done in some instances, such as the duplicate copies of the receipt for the Weekly Information Reports, Technical Service Engineering Report #12, Air Materiel Command, and the reports of the Ballistic Research Laboratories as set out hereafter. Consequently, in order to determine what classified material PERL signed for in behalf of Dr. VON KARMAN during the period immediately proceeding July 4, 1948, it will be necessary to check the original receipts at the agency forwarding the classified documents unless, as Major MAIER has indicated, Mrs. MARIE RODDENBERRY would know the various agencies and research projects from which Dr. VON KARMAN's Office received classified material during this period, and would know whether or not duplicate copies of the original receipts were maintained in all instances in Dr. VON KARMAN's Office. It is suggested the New York Office notify the Los Angeles Division in the event this information is desired from Mrs. RODDENBERRY.

In regard to any classified material which may have been made available to the office of Dr. VON KARMAN immediately proceeding July 4, 1948, Major MAIER made available receipt forms which disclosed the transmittal of the following material to Dr. VON KARMAN's Office at New York City.

Air Materiel Command, Engineering Division, Weekly Information Reports, Technical Service Engineering, report #12.

<u>Week</u>	<u>Number</u>	<u>Copy</u>
May 27, 1948	T 28602	67
July 1, 1948	T 38224	69
June 3, 1948	T 30506	67
June 10, 1948	T 31967	67
June 17, 1948	T 34002	69.

Major MAIER said the receipt forms for the above Weekly Information Reports are duplicate office copies of the receipts forwarded with the reports which would have been signed by someone in Dr. VON KARMAN's Office and returned to the Commanding General, Air Materiel Command, Wright Field, Dayton, Ohio. Major MAIER further advised these Weekly Infor-

mation Reports were classified secret and contained the latest up-to-date developments of various Air Force projects as of that date. It will be noted on page 2 of the report of Special Agent MACE H. SCOVELL dated December 28, 1951, at Washington, D. C., that the above listed Weekly Information Reports were among those burned by Major MAIER at Columbia University.

Major MAIER also produced duplicate receipt copies for the following two reports which were forwarded to Dr. VON KARMAN, Room 827, Pupin Laboratory, Columbia University, the signed original receipt for which would have been submitted to the Director, Ballistics Research Laboratory, Aberdeen Proving Grounds, Maryland:

<u>Date Transmitted</u>	<u>Report</u>
May 24, 1948	BRL Monthly Progress Report - April, 1948.
June 18, 1948	BRL Monthly Progress Report - May, 1948.

On February 7, 1952, Major MAIER located in the files of the Scientific Advisory Board a letter dated November 16, 1950, addressed to Mrs. MARIE RODDENBERRY, from a ~~PAUL~~ CLIPHANT, apparently a secretary in Dr. VON KARMAN's Pasadena Office, which attached a list of all NACA Reports and other material in Dr. VON KARMAN's Pasadena Office as of that date. This list is presently being photostated and copies thereof will be transmitted to the Bureau and New York and Los Angeles Divisions in the near future.

## Office Memorandum • UNITED STATES GOVERNMENT

TO : DIRECTOR, FBI (65-59312)

DATE: March 3, 1952

FROM : SAC, WFO (65-5543)

SUBJECT: WILLIAM PERL, aka.,  
ESPIONAGE - R  
PERJURY

Re Bureau letter dated February 26, 1952, which advised that the evidence submitted to the Laboratory was being retained in the Single Fingerprint Section until called for by a representative of the WFO.

In connection with the material listed in referenced letter attention is called to WFO letters of November 30, 1951, and December 12, 1951, by which the material was originally submitted. These letters pointed out that Major MARK P. MAIER, Deputy Secretary, Scientific Advisory Board, Office of the Chief of Staff, Pentagon, has advised that he does not desire the return of any of the material with the exception of the textbook entitled "Jet Propulsion".

Accordingly, it is requested that the Laboratory or the Single Fingerprint Section, whichever has the textbook, return it to the WFO in order that it may be returned to Major MAIER.

A copy of a letter dated December 4, 1951, addressed to the WFO by Major MAIER is enclosed for the Bureau. In this letter Major MAIER advised that the transfer of the documents could be considered a permanent one and that his office did not object to the disposition of such in any manner determined desirable and proper by the FBI. Therefore the Laboratory or Single Fingerprint Section may destroy the evidence submitted.

Federal Bureau of Investigation  
Washington Field Office  
Washington, D. C.

ATTN: Mr. Mace H. Scovell

Gentlemen:

I refer to documents transmitted by the undersigned to Agent Mace H. Scovell of the Federal Bureau of Investigation on 28 November 1951, as requested by him for the purpose of carrying out the official duties of the Bureau.

In response to further request by Agent Scovell, it has been determined that these reports and papers are no longer needed as reference documents by the Secretariat, Scientific Advisory Board. Accordingly, you are advised that this transfer can be considered a permanent one, and that this office does not object to the disposition of these documents in any manner determined desirable and proper by your agency.

Sincerely,

M. P. MAIER  
Major, USAF  
Deputy Secretary  
Scientific Advisory Board  
Office of the Chief of Staff

Office Memorandum • UNITED STATES GOVERNMENT

TO : DIRECTOR, FBI (65-59312)  
FROM : SAC, LOS ANGELES (65-5075)  
SUBJECT: WILLIAM PEARL, aka.  
ESPIONAGE - R; PERJURY

DATE: April 11, 1952

Re Los Angeles letter dated December 12, 1951, and airtel dated November 21, 1951.

Mrs. MARIE RODDENBERRY, Personal Secretary to Doctor THEODORE VON KARMAN, 1501 South Marengo Avenue, Pasadena, California (who continues to be in Paris, France) recently advised of locating an unopened box in his residence's garage with a Columbia University return address which she felt undoubtedly contained the previously referred to material shipped this past summer from VON KARMAN's Columbia University Laboratory by Major W. K. P. MAIER.

On April 8, 1952, it was ascertained that this wood veneer box, 34 inches by 20 1/2 inches by 20 1/2 inches, bore the return address of "THEODORE VON KARMAN, Mechanical Engineering Department, Columbia University, New York 27, New York". Upon being opened on this date by Mrs. RODDENBERRY in the presence of SA JOHN P. ARDREY, this box was found to contain a quantity of personal correspondence, a number of HACA reports and other research documents, and various miscellaneous items.

The following enumerated 204 items of possible interest were furnished to this office on previously given authorization by VON KARMAN and are being retained in this office.

It is to be noted in the HACA reports the letters TM, TL, and RI are used to designate Technical Note, Technical Memo, and Research Memo respectively. Unless otherwise indicated, the following material is all unclassified.

DEPARTMENT OF THE AIR FORCE  
HEADQUARTERS UNITED STATES AIR FORCE  
WASHINGTON 25, D. C.

16 November 1950

Mrs. Marie Roddenbery  
Administrative Assistant  
Scientific Advisory Board  
Office of the Chief of Staff  
Hq, USAF  
Washington 25, D. C.

Dear Marie:

At last I have completed the list of NACA reports that the Boss has accumulated. I included those that were sent out here to him with the rest of his material from CIT last Spring. In some cases where there was a letter of transmittal attached to the report, I listed only the report--which I think is what you wanted.

Relative to the William Perl papers--I sent you only correspondence the Boss had received from him as that is what he indicated on the telephone. However we do have two reports written by him--the titles are almost similar--which I can send to you if you so indicate:

NACA Calculation of Transonic Flows Past Thin Airfoils by an  
Integral Method (June 1949)  
Calculation of Transonic Flows Past Slender Aerodynamic Shapes by  
an Integral Method (June 1948)

I'll begin listing the classified reports the Boss has received from other sources and send it to you shortly.

It was delighted that I was to hear of Emily's marriage. Wish you had given me more detail--where they are living--is she still working, etc. She's a fine person and I do hope she will find the happiness she so justly deserves. Please convey my feelings to her. When I find out where she is, I want to write her.

Marie, apparently you are standing up under the strain o.k. More power to you! I realize how much responsibility you have there and the pressure that's on all of the time. Do take good care of yourself, however, as one's health is so important. Please keep us posted on the Boss. I did receive a letter from him this week saying they plan to return to Washington the week after Thanksgiving.

My best regards to all of the SAB people.

Sincerely,

Pat Oliphant  
Pat Oliphant

MISC. NACA PUBLICATIONS IN DR. VON KARMAN'S PASADENA OFFICE (UNCLASSIFIED)

Bibliography of Aeronautics - 1917-1919

Bibliography of Aeronautics - 1920 - 1921

" " " - 1922

" " " - 1923

Aeronautics Sixth Annual Report of the NACA - 1920

" Seventh " " " " - 1921

Twenty-seventh Annual Report of the NACA - 1941

Thirty-second " " " " - 1946

Thirty-fourth Annual Report " " " - 1948

Misc. Paper No. 45 - NACA - Armament of Enemy Aircraft - June 1940

NACA "Standard Aeronautical Symbols" - May 28, 1940(in dup)

NACA - Industry Conference on Personal Aircraft Research - Sept. 20, 1946

NACA - University Conference on Aerodynamics - A Compilation of the Papers  
Presented - June 21-23, 1948

NACA - "Calculation of Transonic Flows Past Thin Airfoils by an Integral Method"  
by William Perl

List of NACA and CAI Progress Reports (Beginning June 1938 (NACA)

NACA Wartime Report Release List No. 9, May 30, 1947

List of NACA Reports Apr 15, 1949 - July, 1949

NACA Notice of Declassification of Publications No. 1, Mar. 1949

" " " " " " No. 2, Apr. 1949 - Sept. 1949 Incl.

NACA M.L.'s 265, 266, 264, 267, 268, 269, 270, 271, 272, and 273.

NACA REPORTS IN DR. VON KARMAN'S PASADENA OFFICE (UNCLASSIFIED)

REPORT NO.      SUBJECT:

28(in dup)	An Introduction to the Study of the Laws of Air Resistance of Aerofoils
29(in dup)	The General Theory of Blade Screws
30	Experimental Research on Air Propellers, II
44	The Altitude Laboratory for the Testing of Aircraft Engines
61	Head Resistance due to Radiators
64	Experimental Research on Air Propellers, III
70	Preliminary Report on Free Flight Tests
72	Wind Tunnel Balances
73	The Design of Wind Tunnels and Wind Tunnel Propellers
74	Construction of Models for Tests in Wind Tunnels
76	Analysis of Fuselage Stresses
77	The Parker Variable Camber Wing
78	The Limiting Velocity in Falling from a Great Height
79	Bomb Trajectories
80	Stability of the Parachute and Helicopter
81	Comparison of U.S. and British Standard Pitot-Static Tubes
82	Airplane Stress Analysis
83(in dup)	Wind Tunnel Studies in Aerodynamic Phenomena at High Speed
84	Data on the Design of Plywood for Aircraft
86	Properties of Special Types of Radiators
87	Effects of Nature of Cooling Surface on Radiator Performance
88	Pressure Drop in Radiator Air Tubes
94	The efficiency of Small Bearings in Instruments of the Type used in Acft
95	Diagrams of Airplane Stability
96	Statistical Longitudinal Stability of Airplanes
97	General Theory of the Steady Motion of an Airplane
98	Design of Wind Tunnels and Wind Tunnel Propellers, II
101	The Calculated Performance of Airplanes Equipped with Supercharging Engines
104	Torsion of Wing Trusses at Diving Speeds
106	Turbulence in the Air Tubes of Radiators for Aircraft Engines
107	A High-Speed Engine Pressure Indicator of the Balanced Diaphragm Type
109	Experimental Research on Air Propellers, IV
120	Practical Stability and Controllability of Airplanes
122	Preliminary Experiments to Determine Scale and Slip Stream Effects on a 1/24th Size Model of a JN4H Biplane
142	General Theory of Thin Wing Sections
320	The Measurement of Fluctuations of Air Speed by the Hot-Wire Anemometer
322	Investigation of Air Flow in Open-Throat Wind Tunnels
362	An Extended Theory of Thin Airfoils and its Application to the Biplane Problem
408	General Formulas and Charts for the Calculation of Airplane Performance
448	Improved Apparatus for the Measurement of Fluctuations of Air Speed in Turbulent Flow
491	Working Charts for the Determination of Propeller Thrust at Various Air Speeds
591(in dup)	Measurements of Intensity and Scale of Wind-Tunnel Turbulence and Their Relation to the Critical Reynolds Number of Spheres

NACA REPORTS IN DR. VON KARMAN'S PASADENA OFFICE (UNCLASSIFIED)

<u>REPORT NO.</u>	<u>SUBJECT:</u>
604	Pressure-Distribution Measurements at Large Angles of Pitch on Fins of Different Span-Chord Ratio on a 1/40-Scale Model of the U. S. Airship "Akron"
682	Flame Speeds and Energy Considerations for Explosions in a Spherical Bomb
691	Free-Spinning Wind-Tunnel Tests of a Low-Wing Monoplane with Systematic Changes in Wings and Tails. V. Effect of Airplane Relative Density
884	Effects of Sweep-Back on Boundary Layer and Separation

Index of Reports on Aeronautical Research

240	Nomenclature for Aeronautics

## Office Memorandum • UNITED STATES GOVERNMENT

TO : DIRECTOR, FBI (65-59312)

DATE: November 29, 1951

FROM : SAC, WFO (65-5543)

SUBJECT: WILLIAM PERL, aka.,  
ESPIONAGE - R  
PERJURY

Reference: WFO letter to Bureau dated November 16, 1951.

Major MARK P. MAIER, Deputy Secretary, Scientific Advisory Board, Office of Chief of Staff, Pentagon, has advised that he has been unable to locate the list of material removed from Dr. VON KARMAN's office at Columbia University and burned.

Major MAIER stated he had made such a list and had turned over a copy of it to the Security Officer from the New York Air Force Procurement Field Office, Air Materiel Command, 67 Broad Street, New York City, who assisted him in burning the papers. Major MAIER said that to the best of his recollection this Security Officer was a Mr. LAZARO who had been sent out to assist him by Colonel CONOLEDGE of the New York Air Force Procurement Office.

The New York Office is requested to ascertain the identity of the Security Officer from the New York Air Force Procurement Field Office who assisted Major MAIER in burning the papers and secure from him the list of material destroyed.

RECORDED - 124

EX - 102

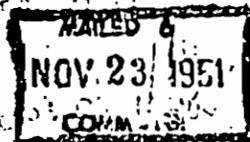

The attention of your office and the Washington Field Office is invited to Bureau letters of 10-1-51 and 10-3-51 directed to the Bureau's Legal Attache, Paris, France, copies of which letters were made available to your offices. These communications requested that Dr. Theodore Von Karman be appropriately interviewed in Paris, France, with view of securing his authorization to permit the FBI to examine and take possession of his confidential publications, particularly those received from the National Advisory Committee for Aeronautics (NACA) so that these documents might be appropriately examined by the FBI Laboratory.

The Bureau is now in receipt of a letter from the Legal Attache, Paris, France, dated 11-5-51 setting forth the results of the interview which was had with Dr. Von Karman in Paris, France, on 11-3-51, copies of which are being transmitted herewith for your office as well as the Washington Field Office and the Los Angeles Office. It will be noted that Dr. Von Karman executed letters authorizing Major M. P. Maier, Secretary of the Scientific Advisory Board to the Chief of Staff of the U. S. Air Force, Pentagon Building, Washington, D. C., Dr. Morton Alperin, U.S.A.F. Air Research and Development Command, Pasadena, California, and Marie Roddenberry, 1501 South Marengo Avenue, Pasadena, California, to make available and turn over to the FBI the various confidential aeronautical documents which were previously in Dr. Von Karman's office at Columbia University and to permit an examination of the records pertaining to Perl's employment with Dr. Von Karman. The originals of these letters of authorization are being transmitted herewith to the Washington Field Office and the Los Angeles Office.

A check has been made of Bureau files concerning Maier, Alperin and Roddenberry and no identifiable information of a subversive nature was located therein. The Washington Field Office and the Los Angeles Office are hereupon authorized to conduct immediate interviews with these persons unless information appears in the files of those offices which would make such interviews undesirable at the present time. During the course of the interviews with Maier and Alperin, the appropriate letters of authorization from Dr. Von Karman should be turned over to them and you should take possession of the various

Attachment

cc - Washington Field (Attachment)  
cc - Los Angeles (Attachment)

65 DEC 12 1951

confidential documents and particularly all available NACA reports to which reference is made in these letters of authorization. These documents should be thereafter forwarded to the FBI Laboratory for appropriate examination.

For the information of the Los Angeles Office, considerable investigation is being conducted with view of determining the nature of the various documents which Perl is alleged to have removed from Columbia University during the weekend of July 4, 1948 or 1949, which documents were thereafter photographed by Julius Rosenberg, Perl and other members of the former's espionage network. In pursuance of this investigation, the New York Office has requested that an immediate effort be made to secure the original copies of all NACA reports and research memoranda which were furnished to Dr. Von Karman's office prior to July 4, 1949. This request has been made in order that these documents may be appropriately examined by the FBI Laboratory to determine whether there is any evidence that these printed pamphlets were taken apart for photographing and also to make a latent fingerprint examination thereof.

For the further information of that office, the examination of Dr. Von Karman's financial records which are in the possession of Mrs. Roddenberry, has been requested for the purpose of determining the exact amount of income which Perl may have derived through his employment by Dr. Von Karman during the period from 1944 to date. It is noted in this respect that the firm of Sverdrup and Parcel Company of St. Louis, Missouri, hired Dr. Von Karman during the year 1947 and in turn Dr. Von Karman hired a staff which included Perl and paid them with funds furnished to him by that company. It is known, however, that Sverdrup and Parcel made two direct payments to Perl in the amount of \$463.50 and \$1032.82 on September 2 and 30, 1947, respectively.

The Bureau has made a similar check of its files relative to Professor Carl Kayan who is presently associated with the Mechanical Department at the Columbia University, New York City. No identifiable subversive information was located as to this individual. The New York Office is therefore authorized to promptly interview Dr. Kayan concerning his knowledge of subject.

URGENT

WILLIAM PERL, ESPIONAGE - R, PERJURY. REBULET OCTOBER 1 LAST. THEODORE VON KARMAN ADVISED THAT IN JUNE 1951 IN NEW YORK CITY INVENTORY OF NACA REPORTS IN HIS CUSTODY MADE BY MAJOR M. P. MAIER, SECRETARY, SCIENTIFIC ADVISORY BOARD, US AIR FORCE AND THEREAFTER SOME WERE DESTROYED, OTHERS WERE TAKEN BY MAJOR MAIER TO OFFICE OF SCIENTIFIC ADVISORY BOARD USAF IN WASHINGTON WHILE STILL OTHERS WERE SENT TO OFFICE OF AIR RESEARCH AND DEVELOPMENT COMMAND IN PASADENA, CALIFORNIA IN CARE OF DOCTOR MORTON ALPERIN. LETTERS FROM VON KARMAN TO MAIER AND ALPERIN AUTHORIZING THEM TO MAKE NACA DOCUMENTS AVAILABLE TO F.B.I. SECURED AND BEING FORWARDED NEXT POUCH. STATED NO RECORDS MAINTAINED BY HIM OF RECEIPT OR DESTRUCTION OF NACA REPORTS WHICH WERE KEPT BOTH IN AIR FORCE SAFE AND IN COMBINATION LOCK FILING CABINETS IN HIS COLUMBIA UNIVERSITY OFFICE. DENIED THAT ANY INFORMATION CONCERNING NEPA PROJECT WAS MADE AVAILABLE TO HIM AT COLUMBIA. CLAIMED HE WAS NOT IN NEW YORK DURING THE SUMMER OF 1948 OR 1949 BUT ADMITTED THAT PERL MIGHT HAVE HAD ACCESS TO HIS SAFE AND FILING CABINETS AT COLUMBIA DURING THESE SUMMERS SINCE COMBINATION OF SAFE AND FILING CABINETS WERE KNOWN TO PERL. SAID THAT PROFESSOR CARL KAYAN, MECHANICAL ENGINEERING DEPARTMENT COLUMBIA UNIVERSITY, IN WHOSE CUSTODY SAFE AND FILING CABINETS WERE DURING VON KARMAN'S ABSENCE, MIGHT HAVE KNOWLEDGE OF PERL'S ACCESS TO THESE AFTER MAY 1948.

COPIES DESTROYED

Examination requested by: SAC, Los Angeles

Reference: Letter 5/7/52

Examination requested: Document - Fingerprint

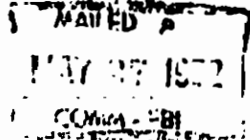

Specimens:

- Q380 NACA TN No. 961, dated November, 1944.
- Q381 NACA "Wartime Report" on "Note on Compressibility Effects on Flowwash at the Tail at Sub-Critical Speeds," originally issued March, 1945, as Confidential Bulletin L5009.
- Q382 NACA "Wartime Report" re "The Problem of Longitudinal Stability and Control at High Speeds," originally issued November, 1943, as Confidential Bulletin number 3K18.
- Q383 Project Squid Bulletin for the Instrumentation Panel, January 5, 1948.
- Q384 Air Materiel Command "Annual Index of Army Air Force Technical Reports, January, 1945 - December, 1946."
- Q385 York Corporation Report Number 5-A for Sverdrup and Parcel re 40 by 40 Propulsion Wind Tunnel.
- Q386 NACA "Tentative Program of NACA Supersonic Conference, June 19-20, 1947."
- Q387 NACA Report "National Program of Transonic and Supersonic Wind Tunnels," copy number 50, described further as a report submitted to the NACA January 24, 1947.
- Q388 NACA "Minutes of meeting, Committee on Aerodynamics, May 2, 1947."

*[Handwritten signature]*

- Q389 Carbon copy of a NACA Communication dated April 28, 1947, to the members of the Committee on Aerodynamics attaching progress reports from the Douglas Aircraft Company and the Boeing Aircraft Company.
- Q390 NACA Mimeographed list of reports released to the Committee on Aerodynamics since November 1, 1946.
- Q391 A report of Progress in Aerodynamic Investigations conducted at the Ames Aeronautical Laboratory submitted to the Committee on Aerodynamics dated 5/2/47.
- Q392 "Progress Report of the Langley Memorial Aeronautical Laboratory submitted at the meeting of the NACA Committee on Aerodynamics May 2, 1947.
- Q393 Ballistics Research Laboratory, Aberdeen Proving Ground, Maryland Abstracts of reports numbered 662, 471, 641, 647, 643, 650, 658 and 660.
- Q394 Report of the Aeronautical Board, Washington, Dated January 31, 1947, re "Survey of Wind Tunnels, dissemination of."
- Q395 A letter from headquarters, Air Materiel Command, Wright Field, Dayton, Ohio, dated January 26, 1948, addressed to the National Advisory Committee for Aeronautics, Director of Research.
- Q396 NACA letter dated May 1, 1947, addressed to VON KARMAN and two copies of notes on the proceedings at the Informal Conference on High Speed Aerodynamic Theory held at the Langley Laboratory on February 3, 1947.
- Q397 Mimeographed list of recipients of the Aerodynamics Handbook.
- Q398 A Department of Scientific Research and Experiment, Admiralty Report re "Note on Compressibility Flow in a Tube of Slightly Varying Cross-Section."
- Q400 Headquarters Air Materiel Command Summary Report Number F-SU-2119-ND dated January, 1947
- Q401 Headquarters Air Materiel Command Summary Report Number F-SU-3-RE, dated January, 1947.
- Q402 Headquarters Air Materiel Command Translation Report Number F-TS-986-RE, dated February, 1947.
- Q403 Headquarters Air Materiel Command Technical Report Number F-TR-2134-ND, dated May, 1947.
- Q404 Headquarters Air Materiel Command Summary Report Number F-SU-2136-ND, dated May, 1947.
- Q405 Headquarters Air Materiel Command Summary Report Number F-SU-1129-ND, dated June, 1947.
- Q406 Ballistics Research Laboratories Progress Reports dated December 15, 1946.
- Q407 United Aircraft Corporation Report for Aerodynamics Committee Meeting May 2, 1947.
- Q408 Headquarters Air Technical Service Command, Intelligence (T-2) Foreign Exploitation Section Progress Report IRE39, dated February 18, 1946.

- Q408 Guggenheim Aeronautical Laboratory, Progress Report Number 1, re Hypersonic Wind Tunnel, dated April 10, 1946.
- Q409 Guggenheim Aeronautical Laboratory, Progress Report Number 2, dated May 7, 1946.
- Q410 Guggenheim Aeronautical Laboratory, Progress Report Number 3, dated June 14, 1946.
- Q411 Guggenheim Aeronautical Laboratory, Progress Report Number 4, dated July 10, 1946.
- Q412 Guggenheim Aeronautical Laboratory, Progress Report Number 5, dated August 8, 1946.
- Q413 Guggenheim Aeronautical Laboratory, Progress Report Number 6, dated September 8, 1946.
- Q414 Guggenheim Aeronautical Laboratory, Progress Report Number 7, dated October 8, 1946.
- Q415 Guggenheim Aeronautical Laboratory, Progress Report Number 8, dated November 8, 1946.
- Q416 Guggenheim Aeronautical Laboratory, Progress Report Number 9, dated December 15, 1946.
- Q417 Estimated Construction Cost Charts of A.E.D.C. Installations published by Sverdrup and Parcel, St. Louis, Missouri, revised as of January 28, 1947.
- Q418 NACA Communication dated April 24, 1947 to members of the Committee on Aerodynamics, enclosing progress reports from the Bureau of Aerodynamics Navy Department, AAF Air Material Command, Civil Aeronautics Administration.

#### Results of examinations:

No evidence was found to indicate that any of the following specimens have been taken apart and reassembled: Q380 through Q384, Q387 through Q390, Q392, Q394, Q396 through Q404, Q406 and Q407, Q417 and Q418.

No conclusion could be reached whether specimens Q385, Q405 and Q408 through Q416 have been taken apart and reassembled, because these specimens are put together in such a manner that it would be possible to carefully remove the fasteners without leaving any evidence of their having been removed. It should be noted further that, if the fasteners would show evidence of having been bent, it would be possible to replace the original fasteners with new ones.

Several staple holes appear on specimen Q386 which indicate that this specimen was stapled in a different manner than it is now stapled together. However, nothing was found which would indicate that the present staple in Q386 has been removed and replaced. Characteristics are present which indicate that the first two pages of Q386 were at one time stapled together separately or to one or more pages not now included with Q386. Characteristics are also present which indicate that the last three pages were at one time stapled together separately or to one or more pages not now included with Q386.

The holes around the staple on Q391 are worn and it is not possible to determine if this specimen has been taken apart and re-assembled.

It is noted that specimen Q395 has staple holes below the place where this specimen is now stapled together. It could not be determined, however, whether this specimen was originally stapled together with two staples or whether the one which has been removed was replaced with the one now holding the pages together.

It is noted that specimen Q393 is not stapled together.

It should be noted, with regard to all of the above-listed specimens, that it would be possible to photograph the contents of the various items without taking them apart. However, it could not be determined from the evidence itself whether any of these specimens have been photographed in full or in parts.

Separate report will be furnished concerning the request for the examination of the evidence for the presence of latent fingerprints, and the evidence will be returned to your office after the completion of the latent fingerprint examination.

None of the above-listed items have been photographed in the Laboratory, except Q386, Q391 and Q395. Photographs were made of the stapled corners of these specimens.

DEPARTMENT OF THE AIR FORCE

Received from  
Date

ATTN: Mr. N. J. Milcox, Liaison Agent

RE: WILLIAM PERL, aka  
William Mutterperl  
ESPIONAGE - R  
PERJURY

Dear Sir:

Reference is made to your letter of January 25, 1952, in regard to the above subject. Pursuant to your request there is attached a description of the ten (10) and twenty (20) foot Wind Tunnels at Wright-Patterson Air Force Base.

The ten (10) foot Wind Tunnel was not in operation in 1947, the first test having been conducted in the fall of 1948. The ten (10) foot Tunnel is not equipped for testing jet engines. However, there have been several jet engine tests in the twenty (20) foot Tunnel, the first of which was conducted in the summer of 1944 on the German buzz bomb (JB-2). Jet Engine Battle Damage Tests were conducted in the twenty (20) foot Tunnel during June and July of 1945, and three (3) jet engine tests were run in 1947. The general description and characteristics of both these Tunnels were classified Restricted in 1947. Details of a new Transonic Test Section, recently installed in the ten (10) foot Tunnel, carry a classification of Confidential.

The descriptive data of the two (2) Tunnels reflected in the attachment and contained herein are classified Restricted. This Department interposes no objection to exhibiting details of the ten (10) foot Tunnel to Lt. Colonel Tokaev during the time necessary for identification purposes as requested in referenced letter.

RECORDED - 18  
Sincerely,

65-59312-714

Mr. PAUL B. SMITH, Assistant Chief, Fighter Branch, Aeronautical Branch Center, Wright-Patterson Air Force Base, Dayton, Ohio, who was the source of information regarding the development of jet fighters, stated that fighter speeds usually are classified as in the 500 mph class or in the 600 mph class, and he does not recall these classes ever being referred to as 550 or 650 mph classes. In addition, a plane in the 600 mph class is expected to have a maximum speed in excess of 600 mph and it is not consistent to classify a plane with a speed of 550 mph in the 600 mph class since such a plane actually would be in the 500 mph class. Mr. SMITH further advised that in nearly all cases, it is considered necessary to have a one half hour fuel reserve for landing operations upon a fighter plane's return to its Base, and that this requirement is not unique to any particular airplane.

With regard to the weight specifications, Mr. SMITH advised that a 5,000 lbs. reserve would appear quite excessive and certainly was not compatible with a plane whose total weight was 12,000 lbs. He also pointed out that the figure of 12,000 lbs. may mean weight empty, in which event 5,000 lbs. could represent the total fuel load rather than the reserve. In any event, Mr. SMITH stated that, to his knowledge, at no time has the Air Force circulated requirements to airplane manufacturers containing specifications similar to those listed in rebulet. He emphasized that the speed figures are not consistent with each other, and that the weight figures did not appear compatible, unless considered as 5,000 lbs. total fuel weight, 12,000 lbs. weight empty, which would give a gross weight of approximately 18,000 lbs., considering the pilot and the armament. Mr. SMITH

Cincinnati 65-1743  
Letter to Director  
Dated 7-2-51

stated he could not rectify the figure set forth with any jet plane developed by the Air Force.

With further reference to the speed, Mr. SMITH stated the possibility existed that a plane having a maximum speed of 550 mph may have had a diving speed of 650 mph. However, in the specifications, the limiting diving speed normally is referred to as a percentage of the maximum speed such as 150%.

Mr. SMITH explained that during 1944, the Air Force was not then considering the manufacture of jet planes in the 600 mph class, inasmuch as engines then developed did not have sufficient thrust to attain a 600 mph speed. He pointed out that the XP-80, although at the present time having a speed in excess of 600 mph, at the time it was developed, was the first plane with a maximum speed in excess of 500 mph. He said that it was not until 1946 that 600 mph planes were being considered.

As set forth in rerep, Mr. SMITH has, in his possession, an Air Corps Technical Report #5232, entitled, "Final Report of Development, Procurement, Performance and Acceptance, XP-80 Airplane," which is a twenty page document labeled Confidential X-148783, Serial 26, dated 28 June 1945. He stated he did not know whether or not this report was available however, he offered his cooperation in producing a photostatic copy if desired. He estimated that normally, it would take approximately one week to have a photostatic copy made. No request is being made to have such a copy made in the absence of Bureau instructions.

WILLIAM PERL, aka  
ESPIONAGE - R  
PERJURY  
(Bufiles 65-59543 and 65-59312)

Rebulet 6-19-51 concerning the JB-2 bomb.

Investigation at the Air Materiel Command, Wright-Patterson AFB, Dayton, Ohio, to date has failed to develop information indicating that any publications were prepared concerning the JB-2 bomb prior to 9-15-44. In addition, the publication entitled, "Guided Missiles - Status and Availability," listed in relet as having been issued by the Air Materiel Command 9-15-44, could not be located at WPAFB.

There follows a summary of the investigation conducted at WPAFB:

Interviews with Mr. ROBERT WICKERSHAM, Technical Director to Aircraft and Guided Missile Section, Mr. CHARLES S. JACKSON, Engineer, and Col. JACK LEET, Aircraft and Guided Missile Section, Mr. J. V. C. GREGORY, Civilian Chief, Procurement, Production and Engineering, Guided Missile Section, Mr. I. W. ROHLFS, Civilian Chief, Air Provost Marshal's Office, Mr. WILLIAM UNDERWOOD, NACA Liaison Officer, and Mr. JOSEPH C. JONES, who during 1944 was assigned to the NACA-NDRC Liaison Office of the Technical Staff, Engineering Division, were conducted.

The following file reviews and other searches were conducted: review of AMC file on JB-2 bomb, Project MX-544, at AMC Central Files; review of Project File, Procurement Section; review of Project File, Guided Missile Section; inquiry made at AMC Library; Mr. L. K. STARK, Central Air Documents Office, stated he caused a search to be made of the index of that office regarding instant matter with negative results; review of closed contract files on Project MX-544, Air Force Contracts Records Depository; and an attempt was made to locate and review files at the Air Force Research and Development Records Depository, JOSEPH H. HALPIN, Chief.

CIN. 65-1743

Col. JACK LEET advised that the only publication he could recall which had been issued by the AMC on Guided Missiles was a registered document, a copy of which he presently has in his possession entitled, "Pilotless Aircraft as Guided Missiles - Development, Status and Availability," labelled Report No. AAF-MD-E98, Security Identification No. X-135461, prepared 6-15-45. This document reflects that it was prepared in accordance with an AAF directive dated 5-25-45, which ordered the preparation of such a report in order that responsible officers could be kept currently advised of the status of the various guided missile projects. In accordance with the instructions of the letter, monthly supplements were prepared as inserts in order to keep the document current. Col. LEET stated that distribution of the document was indicated as: Office of Headquarters, AAF; Office of Headquarters, AAF, Field Locations; Special Activities. Col. LEET stated that inasmuch as this particular document was prepared for the purpose of assembling information regarding the status and availability of the various guided missiles programs, he was of the opinion that this was the first such document prepared.

Col. LEET and others interviewed emphasized that during the course of the development of the JB-2 bomb, tests were conducted with the aid of the NACA and, in fact, ROBERT T. JONES, Aeronautics Engineer, NACA, worked with the AMC in the development and tests conducted. Therefore, full information concerning the JB-2 bomb was available to the NACA. It was noted that from a review of the various files and comments of persons interviewed, it was evident that the earlier tests by and with the assistance of NACA were conducted at Langley Field, Va., rather than in conjunction with NACA at Cleveland. Correspondence indicates this to be true as late as November, 1944. Mr. UNDERWOOD stated he recalled during the course of the development of the JB-2 bomb, instructions were received that the cooperation from NACA should emanate from Cleveland rather than from Langley Field, and that thereafter the switch was made.

As of possible interest in this matter, the following information concerning the development of the JB-2 bomb is furnished as obtained from a review of the various files noted above:

The JB-2 bomb, as originally developed, was a "Chinese copy" of the German V-1 buzzbomb. Under date of 7-4-44 a directive was received by the Guided Missile Section from the Commanding General, AMC, stating that the Engineering Division was charged with a project which consisted of producing an exact copy of the German robot bomb.

CIN 65-1743

On 7-12-44 a conference on the "German Flying Bomb" was held between members of the British Aircraft Commission and Officers of the Air Materiel Command. At this conference, the general characteristics of the "German Flying Bomb" were discussed.

A memorandum was issued by the Armament and Ordnance Office on July 15, 1944, entitled "German Flying Bomb." The purpose of the memorandum was to give information which had been derived from a study of parts of the German bomb. Dimensional data set forth therein is as follows: length of fuselage, 21' 10"; length of jet propulsion unit, 11' 3"; overall length (including overhang of propulsion unit), 25' 4½"; maximum diameter of fuselage, 2' 8½"; maximum diameter of propulsion unit, 1' 10 ¾"; wing span, 16'; root chord, 4'; tip chord, 2' 8"; wing area (gross), 55 square feet; aspect ratio, 4.7; propulsion unit consisting of grill containing 12 jets; warhead equivalent in size and weight to the German SB1000 thin case bomb. Another memorandum reflected that the overall length of the warhead was 47", diameter at rear, 33", diameter at forward end, 28".

On 7-17-44, a conference was held with the Republic Aviation Co., Bell Aircraft, Jack and Heintz Co. and the Ford Co. The following contractors participated in the development of the JB-2 bomb, and were issued contracts dated 8-2-44: Republic Aviation Co., Farmingdale, N. Y., Contract No. W-33-038-AC-4480, for the manufacture of the airframe; Ford Motor Co., Dearborn, Mich., Contract No. W-33-038-AC-4483, for the production of pulse jet engines; Jack and Heintz, Inc., Bedford, Ohio, Contract No. W-33-038-AC-4482, for the production of control systems; Alloy Products, Inc., Waukesha, Wis., Contract No. W-33-038-AC-4484 for production of pressure vessel assemblies. Ordnance was to develop the warheads and the Signal Corps was to develop the radio equipment required.

During the period from July to December, 1944, a number of memoranda were issued between the NACA and the Air Materiel Command. Most of these concerned the use of ROBERT T. JONES, Aeronautical Engineer, and requests for his attendance at various conferences and tests.

By letter dated 8-16-44 it was indicated that the Bell Aircraft Corp. and the Republic Aviation Corp had been made available copies of a series of drawings regarding the various components of the JB-2.

CIN. 65-1743

In a memorandum issued by the Air Force Technical Service Command dated 9-15-44 the results of an engineering inspection of JB-2 first production article at the Republic Aviation Corp., Farmingdale, L. I., on 9-6,7-44 were reported. By memorandum dated 9-23-44 it was noted that as of 9-21-44 one unit was complete and five more were in various stages of production. It was stated that if control units to be produced by the Jack and Heints Co. had been available, several more units would have been ready.

An inter-office memorandum dated 9-7-44 entitled "Status Report on JB-2 Robot Bomb and Launching Accessories," suggested the following schedule for the production of 1000 robot bombs: 1 by September 1, 1944; 24 by 9-30-44; 100 for October and each subsequent month.

The first launching test of the JB-2 was conducted on 10-10,11-44, and two more were tested on 10-24-44. It wasn't until November, 1944, that successful flight tests were conducted.

It is to be noted that by letter dated 8-9-44 Brig. Gen. F. O. CARROLL of the AMC to the Commanding General, AAF, requested that the classification of the JB-2 (German buzzbomb) be changed from "secret" to "restricted," "since much of the information which now bears a secret classification has been published in leading periodicals and newspapers in this country. The American copy of this development contains nothing new or novel, which is not already known to our enemies." By memorandum dated 8-30-44 M. S. ROTH, Colonel, Acting Chief, Technical Staff, Engineering Division, advised the various laboratories and sections involved that authority has been received for the downgrading of the security classification of Project MX-544 (which is the symbol for the JB-2 bomb project) from secret to restricted. Formal notification of the change in classification was to appear in the September issue of CD-356.

The first indication in the files that the JB-2 was being considered for use in the Pacific appears in a letter dated 6-29-45 from Brig. Gen. J. F. PHILLIPS, Office of the Assistant Chief Air Staff, to the Director, Air Force Technical Service Command, Wright Field, Dayton, Ohio. The letter advised that combat tests of the JB-2 were contemplated in the Pacific Theater.

At the WPAFB the following sections participated in the development and production of the JB-2 bomb: Power Plant Laboratory, Aircraft Laboratory, Equipment Laboratory, Aero-Medical Laboratory, Aircraft Radio Laboratory, Ordnance Aircraft Section, Production Section, and Fighter Branch, Engineering

CIN. 65-1743

~~TOP SECRET~~

Division. JOSEPH E. HALPIN, Chief, Air Force Research and Development Records Depository, advised that his section was in the possession of a number of the closed files from these various sections. He said, however, that the records have been brought into the Depository in large crates and, to date, the Depository has not been sufficiently organized to prepare an index or to otherwise allow for the ready location of any particular file or document. He termed it "virtually an impossible job" to locate specific documents or to determine the possibility of the existence of publications concerning the JB-2 bomb in the retired files without specific file number data together with information as to what particular section at WPAFB originated the material.

In view of the above, unless the Cleveland Office has been successful in identifying particular documents or reports relating to the JB-2 bomb which can be traced at WPAFB, no further investigation will be conducted by the Cincinnati Office in this regard in the absence of specific instructions.

## FEDERAL BUREAU OF INVESTIGATION

THIS CASE ORIGINATED AT NEW YORK

FILE NO. 65-1743

REPORT MADE AT <b>CINCINNATI, OHIO</b>	DATE WHEN MADE <b>7-2-51</b>	PERIOD FOR WHICH MADE <b>5-18, 21, 25, 28-51; 6-25, 26, 28-51</b>	REPORT MADE BY <b>JULIAN B. ENGELSTAD MRW</b>
TITLE <b>WILLIAM PERL, wa.</b>			CHARACTER OF CASE <b>ESPIONAGE - R PERJURY</b>

## SYNOPSIS OF FACTS:

BETTY BROYLES MONTGOMERY, on interview, stated she and her husband often entertained while at Cleveland, Ohio. However, she could not recall any specific party during April of 1945 nor did she recall any gathering in their apartment of solely NACA employees. She failed to identify pertinent photographs.

PAUL B. SMITH, Fighter Branch, WP-APB, Dayton, stated the development of jet fighters in each case was the result of separate negotiations between the Air Corps and particular manufacturers and at no time were specifications submitted for a particular type plane to serve manufacturers with a request for bids. With regard to the XB-81, Mr. SMITH and Major LOGAN, Air Development Force, WP-APB, stated they knew of no reason why Bell Aircraft or the Curtiss Wright Corporation should have been given classified information concerning TG-100 or I-40 engines during 1944 while it was being produced by the Consolidated Vultee Aircraft Company.

Cincinnati 65-1743

~~Avenue Cincinnati~~ on interview by Special Agent RAYMOND C. ECKENRODE and the writer, stated that during the time she and her husband resided in ~~the Riverside House Project in Cleveland, Ohio~~, they often entertained and very few evenings passed in which at least some of their friends did not stop in. She said for this reason she could not recall any specific gathering or party which may have occurred in their home during April of 1945. ~~Mrs. MONTGOMERY~~ explained that the persons who frequented their apartment were usually neighbors in the apartment project and did not represent any particular group such as the National Advisory Committee for Aeronautics, although she believed there were a number of NACA people among those present.

Pertinent photographs in this case were exhibited to ~~Mrs. MONTGOMERY~~ however, she failed to make an identification of any of these persons as having been to the ~~MONTGOMERY~~ home. She stated the photograph of MICHAEL SIDOROVICH, looked like an individual who may have been at their home. However, she could not make an identification, nor did she know such an individual by name. ~~Mrs. MONTGOMERY~~ stated she did not know anyone by the name of WILLIAM PERL or PERLMUTTER.

It was explained by ~~Mrs. MONTGOMERY~~ that very few of the gatherings at their apartment were in the nature of planned parties. Usually neighbors and friends would drop in, and at times they brought with them persons who were not known to ~~Mrs. MONTGOMERY~~. The gatherings were very informal in nature and usually consisted of drinking and general mixing among those present.

~~Mrs. MONTGOMERY~~ stated they had a large collection of phonograph records and usually played those records whenever anyone was around. She stated the only records she could recall which may have been considered Russian in nature were an album of "Songs of the Red Army" issued by Columbia. She said they used to have several PAUL ROBESON records, however, she thought most of these were spirituals. She stated she does not know, "The Internationale," and to her knowledge, they have never had a record of it. It was

Cincinnati 65-1743

possible, however, that someone may have brought the record to their apartment, she pointed out. Mrs. MONTGOMERY advised that she had no reason to believe that any of the individuals who gathered at their apartment were Communist Party members or sympathizers and she could recall no occasion when there was a discussion which could be interpreted as being Communistic or pro-Russian in nature. She said that she was not aware as to what discussions may have occurred between individuals who may have been present. She did recall that she and a few others were interested in the study of the Russian language and that this was often discussed inasmuch as they wanted to get other individuals interested so that a sufficiently large group could be obtained to continue in the language course.

The only petition which Mrs. MONTGOMERY could recall was one in connection with "Town Meetings of Greater Cleveland." She stated she was active in trying to get individuals to attend those meetings and in order to obtain a speaker or to have a meeting of this group in the project, it was necessary to be able to show an interest on the part of the persons residing in a particular area. She stated it was quite likely that persons visiting their apartment may have asked to sign a petition in this regard.

The following persons were named by Mrs. MONTGOMERY as being among those who frequently visited their home while at Cleveland:

RICHARD KREBS of NACA, Cleveland, KREBS  
participated in the Russian language class.

TOMMY TAYLOR, employed at Fisher Body Company.

HUPPERT and wife, BARBARA, he being with NACA.

ELI OSSOFKY who was killed last year in an  
automobile accident.

MARGARET SCHLOSS, who was then in charge of Personnel  
for the Riverside Housing Project.

Cincinnati 65-1743

Mrs. MONTGOMERY stated there were other individuals employed at the Cleveland Airport and at the Fisher Body Company who frequented their home, however, she could not recall their names.

AT DAYTON, OHIO

II. RE: JET FIGHTER PLANES,  
INCLUDING XP-80

There follows a summary of information concerning the development of various jet fighter planes between the U. S. Air Force and the several airplane manufacturers. The information was furnished by Mr. PAUL B. SMITH, Assistant Chief, Fighter Branch, Wright Aeronautical Development Center, Wright Patterson Air Force Base, Dayton, Ohio.

XP-59A:

The Bell Aircraft Corporation developed the first jet fighter in the United States this being known as the XP-59A. This plane, developed as a highly secret project, began in about 1942 when General ARNOLD was made aware of the British jet engine. The Army Air Force called together representatives of the Bell Aircraft Corporation and the General Electric Company, with the results that the General Electric Company was to go ahead and copy and improve the British jet engine and Bell was to build the airframe for the engine. General R. P. SWOFFORD was the Project Engineer in connection with the development of the XP-59A. Mr. SMITH stated that this plane was not regarded as successful and was discontinued. No formal Invitations to Bid was issued to the various manufacturers in connection with the development of this airplane.

XP-80:

Next in line of jet fighters development was the XP-80 which was started in May 1943 at the request of the Air Force, to develop a new jet fighter around the British Halford jet engine. There was no formal Invitation to Bid issued in connection with the development of this plane and there was no competition whatsoever involved, according to Mr. SMITH. The XP-80 initially was a

Cincinnati 65-1743

a result of a conference in May of 1943, attended by General CARROLL, Col. BOGERT, Col. ROTH, then Col. SWOFFORD, and Captain EZRA KOTCHER and by Mr. HIBBARD and Mr. PRICE of the Lockheed Aircraft Company. Lockheed was informed of the status of jet propulsion development and was invited to submit a fighter proposal around the DeHavilland Halford H-1B engine at the time available from the United Kingdom. Drawings and specifications of the H-1 unit were transmitted to Lockheed on 24 May, 1943. In June 1943, contractor representatives brought to the Air Technical Service Command the proposal of an airplane to be later known as the XP-80. With the quote letter were reports #4199 and #4211, entitled, "Preliminary Design Investigation," and "Manufacturers Brief Model Specifications," respectively. This proposal was studied by the Air Technical Service Command and Headquarters, Washington, and on June 17, 1943, received the "go-ahead" from General ECHOLS, Chief of Materiel and Service in a phone conversation with General CARROLL of the Engineering Division Air Technical Service Command. Following this authority, action was taken to process a letter contract by issuance of authority for purchase #329678 dated June 17, 1943, attaching Lockheed's original quote for \$524,920.00, dated 15 June, 1943. Letter contract #W535-ac-40680, approved on 24 June, 1943, was the result of authority to Purchase #329678 and allowed work to proceed while a formal contract was being processed. This formal contract was based on authority for Purchase #329678 and approved 16 October, 1943, called for one airplane at an estimated cost of \$495,210.00 and a fixed fee of \$19,808.40, totaling \$515,018.40.

The object behind the development and procurement of the XP-80 airplane was to create a single place fighter utilizing the British DeHavilland Halford H-1B jet propulsion power plant and maintaining a simplicity of design which would reduce manufacturing and maintenance problems and allow rapid construction of a prototype airplane without the necessity of prolonged research programs. The first XP-80 Serial 44-83020, was completed within 145 days of the starting date and made its initial flight on Jan. 8, 1944. In official performance tests, this airplane achieved the speed of 502 miles per hour, thus being the first Air Force airplane to exceed 500 miles per hour. Upon completion of tests,

Cincinnati 65-1743

this airplane was formally accepted and delivered to the Fourth Air Force for use as a transition training airplane. The airplane was discarded as a service test prototype in favor of the air-frame combined with the General Electric I-40-3 engine, which, by reason of greater thrust for similar space could produce better performance. The second and third XP-80s were of the same general type and configuration and incorporated the General Electric I-40-3 centrifugal type jet engine. These were known as XP-80-A3, and construction for these two was authorized January 6, 1944 in a Technical Contract #1534, issued by Headquarters, U. S. Air Force. These planes made their initial flights on June 10, and August 1, 1944, respectively.

Following this, a series of thirteen service test airplanes, designated YP-80-As, were built and these were accepted by the Air Force during 1944 and up to July of 1945. Following this, the P-80 airplane was then produced in large quantities.

The following weight and speed statistics regarding the XP-80 plane were furnished:

Maximum speed:	502 miles per hour
Gross weight:	8,916 lbs.
Weight empty:	6,287 lbs.
Fuel:	1,320 lbs.
Armament:	796 lbs.

Information regarding the XP-80 plane was furnished by Mr. SMITH largely from Air Corps Technical Report #5232, entitled, "Final Report of Development, Procurement, Performance and Acceptance, XP-80 Airplane," which is a 20-page document labeled Confidential #X-148783, Serial 26, dated June 28, 1945.

#### XP-81:

The XP-81 was developed through negotiations between the Army Air Force and the Consolidated Vultee Company. Negotiations regarding the XP-81 were begun in January of 1944, the planes to be powered with a propeller and turbo combination of engines, the T-100 and I-40, both developed by General Electric. On January 7,

Cincinnati 65-1743

1944, approval was granted in the form of Technical Instructions #1535, issued by Headquarters, U. S. Army Air Force, which granted approval to procure two airplanes from Consolidated Vultee. In February of 1944, a letter of contract was placed and approved. The subject of the Technical Instructions was "Approval of Consolidated Vultee Proposal," which is the basis for Mr. SMITH's conclusion that the XP-81 was developed as the result of submission by Consolidated Vultee of the idea for the plane.

Statistics on the XP-81, as developed, were:

Gross weight:            Approx. 25,000 lbs.  
Maximum speed:        Approx. 500 mph  
Maximum fuel capacity: Approx. 11,000 lbs.

XP-82:

The next fighter developed was the XP-82, which is the twin-engine Mustang, not a jet.

XP-83:

Following this was the XP-83, a single engine jet, developed by the Bell Aircraft Corporation. Action on the development between Bell and the Air Force was started through purchase action initiated on March 7, 1944. The Bell Company came in and discussed building of a new single engine jet fighter. Authority to go ahead with that plane emanated from Washington in the form of Technical Instructions #1656, dated March 24, 1944. Again, in the case of the XP-83, the plane was a manufacturer's proposal, according to the records in the possession of Mr. SMITH. The Technical Instructions #1656 dated March 24, 1944, was entitled, "Procurement of XP-83 Airplane," and stated the problem involved was to procure two experimental flight test articles and one static test article of the XP-83 type aircraft. The aircraft, as eventually procured, was to take cognizance of recommended changes as discussed on January 10, 1944 by Lt. Col. TERHUNE with General CHILDLAND and Col. R. C. WILSON. The Instructions referred to a letter dated March 15, 1944 subject of which was "Bell D-16 Design Proposal." Mr. SMITH is in the possession of a final report on

Cincinnati 65-1743

the XP-83, entitled, "Technical Report #5536," which contains detailed information on the development of the XP-83. Statistics on the XP-83, as developed, are:

Maximum speed:	552 miles per hour
Gross weight:	21,950 lbs.
Fuel:	1,450 gallons, which, if gasoline would be at the rate of 6.7 lbs. per gallon or a total weight of 9,715 lbs.

XP-84:

The XP-84 was a jet fighter proposed by the Republic Aircraft Corporation and was initiated through a conference held on September 28, 1944, at which time Republic brought in data on their proposed jet fighter. By this time, according to Mr. SMITH, every airplane manufacturer wanted to get into the jet fighter field in preference to the reciprocating engine field. He stated that also in those latter cases, the Air Force did not solicit or circularize among manufacturers for a specific airplane. It was not until November of 1944 that the Air Force received authorization from Washington in the form of Technical Instructions #2184 to cover the development of the XP-84.

XP-85:

The XP-85, a jet parasite-type fighter for operation with the B-36 bomber, originated as a result of talks between the Air Force and the McDonnell Aircraft Corporation, starting in May of 1944. This project was delayed and it was not until April of 1945 that any real activity was undertaken. There was almost a year of talk on this particular plane and it developed as the result of direct negotiations with McDonnell Aircraft.

XP-86:

The XP-86 was the result of proposals by the North American Aviation Corporation, one of the last aircraft manufacturers to get into the jet field. North American brought in two

Cincinnati 65-1743

proposed fighters in August of 1944 for discussion with the Air Force, one of which resulted in the XP-86.

XP-87:

Development of the XP-87 and subsequent jet fighters was not begun until 1946, Mr. SMITH related.

Summary:

Mr. SMITH emphasized that in the development of jet fighters, to the best of his knowledge, each was the result of separate negotiations between the Air Force and the particular aircraft manufacturer. At no time, to his knowledge, were specifications submitted for a particular type plane to serve manufacturers with a request for bids on such a plane. In the majority of cases, the manufacturer came to the Air Force with a proposed airplane, inasmuch as following the XP-80, most of the airplane manufacturers wanted to get into the jet field.

Mr. SMITH stated he held the same position of Assistant Chief in the Fighter Branch during 1944 and furnished the identity of the following individuals who also were familiar with the development of jet fighter planes:

General R. PACE SWOFFORD, currently at the Baltimore Headquarters of the Air Force Research Development Center.

General ROTH, Headquarters, United States Air Force, Washington, who was Chief of the Fighter Branch in 1944.

Col. CHARLES TERHUNE, presently assigned, Hdqts., U. S. Air Force.

CHARLES HALL, presently Dayton, Ohio representative of the Bell Aircraft Company.

The following investigation was conducted by Special Agent HARLAND D. SHAW:

Cincinnati 65-1743

III. RE: ENGINES DESIGNATED  
TG-100 AND I-40

Brigadier General R. P. SWOFFORD, Deputy Chief, Air Research and Development Command, Wright-Patterson Air Force Base, Dayton, Ohio, stated he was previously associated with what is now known as the Air Development Force, Fighter Projects Branch, but does not remember the XP-81 plane. He stated, as near as he could remember, authority was granted to discuss jet engines and jet aircraft projects with the major companies producing the same about the summer of 1943, but does not remember or have knowledge as to whether or not information was given to Bell Aircraft or Curtiss Wright Corporation in this regard as of May 1944, as he was outside the United States during 1944.

Mr. PAUL B. SMITH, Assistant Chief, Wright Aeronautical Development Center, Fighter Projects Branch, Wright-Patterson Air Force Base, Dayton, Ohio, advised the records of his office reflect the Consolidated Vultee Aircraft Company started production on two XP-81 planes on January 20, 1944. These two planes were to be built around a TG-100 and an I-40 engine combination. The authority for this contract was Technical Instructions #1535, dated January 7, 1944.

SMITH stated he could find nothing in his files to indicate that there had been any engineering negotiations with other companies in this connection and that he does not remember that the plane or the engines were discussed with either the Bell Aircraft Company or the Curtiss Wright Corporation. He stated that he is of the impression that there was no competitive bidding in connection with this contract with the Consolidated Vultee Aircraft Company which furthers his belief that no classified information concerning the plane or the engines would have been furnished either of the companies in question.

SMITH stated Colonel CHARLES TERHUNE handled the engineering negotiations on this project, but that any information he might have in this connection would be from memory only. TERHUNE is now stationed at the Pentagon Building, Washington, D. C.

Cincinnati 65-1743

Major W. G. LOGAN, Air Development Force, Fighter Projects Branch, Wright-Patterson Air Force Base, Dayton, Ohio, advised that during 1944 he was a Project Officer, Fighter Branch, Engineering Division. He concurred with the information furnished by Mr. SMITH, stating he knew of no reason why the Bell Aircraft Company or the Curtiss-Wright Corporation should have been given classified information concerning the TG-100 or the I-40 engines or the XP-81 Aircraft during 1944 while it was being produced by the Consolidated Vultee Aircraft Company.

Col. PAUL F. NAY, Chief, Power Plant Laboratory, Air Development Force, Wright-Patterson Air Force Base, Dayton, Ohio, stated he has no record to substantiate his belief, but that he is sure the Bell Aircraft Company had complete information on the I-40 engine during the early part of 1944. Bell Aircraft Company was interested in the P-83 airplane about this time and the P-83 was powered by the I-40 engine.

He knew of no reason why the Bell Aircraft Company should have had any information on the TG-100 engine, but stated it was possible that they may have had such information.

NAY stated the Curtiss Wright Corporation was very much interested in the TG-100 engines and had a project to install TG-100 engines in the C-113 Aircraft. He stated he was not sure this was during 1944 and that it might have been a year or so later.

NAY stated he knew of no reason why either of the companies shouldn't have had information of a classified nature, on either of the engines if they so desired it, but again he does not remember that they did have such information as of May 1944.

A review of U. S. Air Force Contract #W33-038-AC-1887, furnished by Mr. S. A. DAVIS, Chief, Air Force Contract Records Depository, Wright-Patterson Air Force Base, Dayton, Ohio, reflects that a contract was entered into on July 20, 1944, with the Consolidated Vultee Aircraft Company for the production of two XP-81 Airplanes, after a period of negotiation from February 16, 1944 to May 3, 1944.

Cincinnati 65-1743

This contract was awarded to the above company for the following reasons:

- A. "This material is urgently required for the War Program."
- B. "Contractor can meet the delivery requirements."
- F. "This is the only source known to the Materiel Command."

The above reasons were listed for the reason that no competition was invited in the awarding of this contract.

Gentlemen:

Reference is made to the Personnel Security Questionnaire submitted by your facility in the case of the citizens whose names appear herein.

In conformance with par 2 of the Secrecy Agreement set forth in par 67 of AR 380-5 and Article 16-20 of the Security Manual for Classified Material of the Department of the Navy, consent is hereby GRANTED for employment on or access to top secret and secret contracts and information of the Departments of the Army, the Navy, and the Air Force in the case of the following one citizen(s): This grant of consent is subject to the conditions and requirements set forth on the attached page (attached to the original of this letter only).

SOBELL, MARTIN ✓

BY DIRECTION OF THE SECRETARIES OF THE AIR FORCE, ARMY, AND NAVY

Very truly yours,

*Charles W. Miller*  
137246545

GEORGE P. MILLER  
Lt Col, G.P. (USAF)

### CONDITIONS AND REQUIREMENTS

1. Consent granted for the employment of an individual is your authorization to utilize the service of the individual on aeronautical and classified (top secret, secret, confidential or restricted, as indicated in each consent letter), Army, Navy and Air Force contracts being performed by you within the geographical limits or under the jurisdiction of the Army Area of Air Materiel Command (hereinafter referred to as Command) from which you receive the consent.
2. Before you may employ an individual on contracts of the type described above, within the geographical limits or under the jurisdiction of another command, consent must be obtained by request submitted to the command in which or under the jurisdiction of which the individual is to be employed. The request must be accompanied by a photostatic or certified copy of the original letter of consent and a new Alien Questionnaire or Personnel Security Questionnaire, whichever is applicable.
3. If information comes to your attention which indicates that your employment of the individual is, or may be, inimical to the interests of the United States, you are required promptly to make complete report to the office from which you received the consent letter, in order that appropriate action may be taken.
4. All correspondence or inquiries in connection with this matter should be directed to the office from which you received the consent letter.

Inspector General's Office

This letter supercedes consent letter dated 11 February 1949.

## EMPLOYEE'S PATENT RELEASE AGREEMENT

The undersigned employee, in consideration of his employment by **REEVES INSTRUMENT CORPORATION** (hereinafter referred to as the Corporation) and in consideration of his employment in a capacity where he is or may be in a position to learn of various developments relating to the Corporation's business and working with its tools and appliances and other facilities placed for its benefit at his disposal, and in consideration of the compensation to be paid for his services during the period of his employment, agrees:

(1) to disclose promptly and assign to the Corporation any and all inventions, discoveries, improvements or modifications which he may have made, discovered or conceived, or which he may make, discover or conceive, either solely or jointly with others, throughout the period of his employment by the Corporation or its successors in business, relating to the business, manufacturing methods, processes, techniques, products, or research of the Corporation as well as any invention, discovery, improvement or modification relating to the subject matter of any special or specific project or development in which the Corporation may from time to time be engaged;

(2) to assist the Corporation, at its expense, to obtain for its own benefit and the benefit of its successors, or assigns, patents on all such inventions, discoveries, improvements or modifications in any and all countries;

(3) to execute all papers necessary or deemed by the Corporation, its successors or assigns, to be necessary, for use in applying for and in obtaining such patents, and divisional continuing and reissue applications in connection therewith as the Corporation, its successors or assigns, may desire, together with assignments thereof to the Corporation, its successors or assigns, at its expenses, at any time;

(4) to testify in all legal proceedings, sign all papers necessary or deemed by the Corporation, its successors or assigns, to be necessary, make all oaths, and generally do everything possible to aid the Corporation, its successors, legal representatives and assigns, to enforce Letters Patent for such inventions, discoveries, improvements or modifications in all countries, all at the Corporation's expense;

(5) to assign to the Corporation all copyrightable works or articles he may have prepared or may prepare during his said period of employment bearing upon the Corporation's business, work or investigations; and

(6) that such inventions, discoveries, improvements or modifications, copyrightable works or articles are to be the sole and exclusive property of the Corporation, its successors or assigns, whether patented, copyrighted, or not by the Corporation;

(7) that he will not, without the consent of the Corporation in writing first obtained, either during or after the termination of his employment with the Corporation, disclose to any third person any confidential information or trade secrets of which he acquired knowledge while in the employment of the Corporation or its predecessors or successors in business; and further, that upon leaving the employ of the Corporation, he will not take with him any drawing, blueprint, or other reproduction, or any record or copy of confidential information, without the written consent of an executive officer of the Corporation.

As a reward for the ingenuity and engineering skill demonstrated by him in conceiving each such invention as is disclosed to the Corporation under the foregoing provisions and on which the Corporation may make application for Letters Patent, the Corporation agrees to pay the undersigned employee the sum of \$50 upon the issuance of each patent based on an application executed by him and assigned to the Corporation.

As to subject matters not connected with its business, the Corporation makes no claim, and any and all inventions, discoveries, improvements or modifications made by the undersigned employee on his own time and at his own expense and not related to such subjects are his sole property. The employee agrees, however, to give the Corporation a first refusal on any and all such inventions, discoveries, improvements or modifications and the right to meet any firm offer of another for any such invention, discovery, improvement or modification within ten days after written notice to the Corporation of such offer.

Attached hereto, as a matter of record, is a complete list initialed by the employee and an officer of the Corporation of all inventions, discoveries, improvements or modifications, patented or unpatented, which he made or conceived prior to his employment with the Corporation or its predecessors in business.

It is mutually agreed that the provisions of this agreement shall supersede the provisions of any prior or existing agreements, with respect to any such inventions, discoveries, improvements or modifications or any such copyrightable works or articles, entered into by the undersigned employee with the Corporation or its predecessors in business; and that this agreement shall be binding upon and shall inure to the benefit of the successors and assigns of the Corporation and the legal representatives of the employee.

IN WITNESS WHEREOF, the parties hereto have executed this agreement this 17 day of June, 1947
